

Wandsworth Joint Prevention Framework

Promoting the health and wellbeing of all people
living and working in Wandsworth

Anna Raleigh, Consultant in Public Health

Richard Wiles, Head of Prevention and Well-being

Jamie Fagg, Senior Public Health Lead

May van Schalkwyk, Public Health Registrar

Amrinder Sehgal, Wandsworth CCG

Shaping the Wandsworth Joint Prevention Framework: feedback from people in the borough

A positive message: promoting health and wellbeing

Health and wellbeing of Families, children and young people

**Recognise all the great work already
done in the borough and harness this**

Governance and overview

The importance of feedback and valuing comments

Central theme: Good Health and Wellbeing

Next steps: using the framework

Early 2017

- Developing implementation plan and governance, bringing together key stakeholders including communities and the voluntary sector
- Identifying priorities

Mid 2017

- Finalising implementation plan guided by priorities and collaboration across the borough

Late 2017

- Implementation

Commissioning prevention from voluntary organisations

The Council has (Paper 16-418):

- Committed to maintain programme of voluntary organisation funding in 2017/18
- Work with the CCG to agree shared priorities and investment
- A different style of commissioning – working with voluntary organisations to define ambitions and outcomes

The vision

- Fewer but more substantial contracts
- Focussed on agreed priorities
- Defined by outcomes not minutiae
- Often delivered by groups of organisations working together
- A long-term commitment

The process

- Gradual change – we can't fix everything at once
- No new money (for now)
- A pragmatic approach
- Next step is work with voluntary organisations on ambitions and outcomes

Thank you for listening and for this opportunity

Questions or comments are welcome
