How to play the Compass Picture Puzzle Game: Example

Use the compass points on the two corners of the grid to find your way around the board.

N = North, S = South, W = West and E = East

Start at the square marked 'start'

Go one square North, then one square West. What is the first letter of the picture in that square?
(Pineapple)

p

From that square, go three squares East. What is the first letter of the picture in that square?
(Elephant)

e

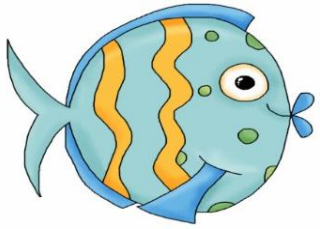

From that square, go two squares North, and two squares West. What is the first letter of the picture in that square?
(Train)

t

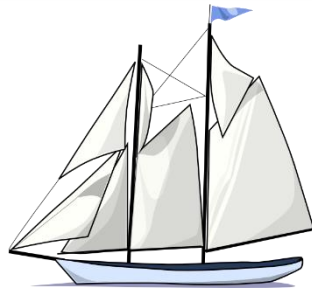

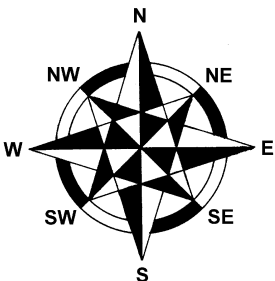

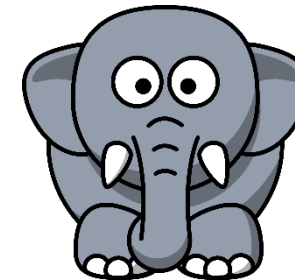

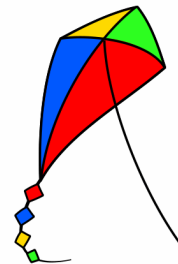

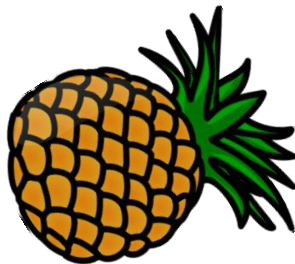

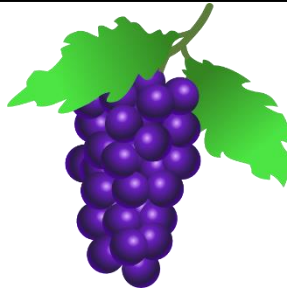

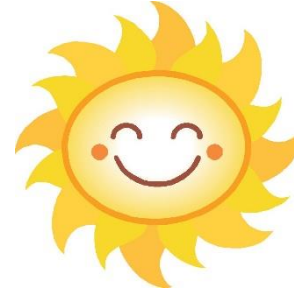

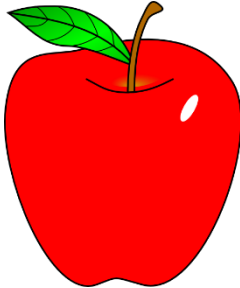

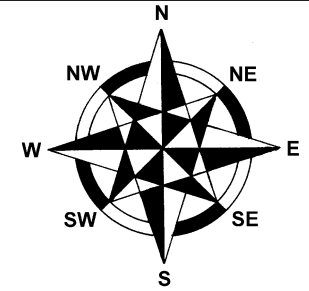

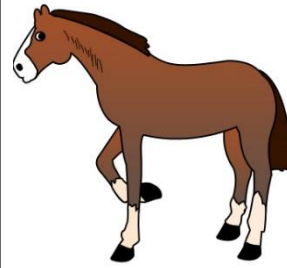

This makes the word PET. Now try the other puzzles.

Compass Picture Puzzle Game (4 Points)

Start at the square marked 'start'	
Go 4 squares North, then 1 square West. What is the first letter of the picture in that square?	
Go 2 squares East, then 1 square South. What is the first letter of the picture in that square?	
Go 2 squares West. What is the first letter of the picture in that square?	
Go 1 square West, then 1 square North. What is the first letter of the picture in that square?	
Go 3 squares South, then 4 squares East. What is the first letter of the picture in that square?	
Go 2 squares West. What is the first letter of the picture in that square?	
Go 2 squares North, then 2 squares West. What is the first letter of the picture in that square?	
Go 2 squares South, then 4 squares East. What is the first letter of the picture in that square?	
Now rearrange the letters to make a Guiding word.	

Compass
Puzzle

Start

Compass Picture Puzzle Game (8 Points)

Well done! You've mastered the four main (cardinal) points of the compass. Now try using the other four points, which lie between the four main points. They are:
NE (North East) which is halfway between North and East
SE (South East) which is halfway between East and South
SW (South West) which is halfway between South and West, and
NW (North West) which is halfway between West and North

This means you can go diagonally across the board.

Start at the start square.

Go 1 square North West, then one square West.

What is the first letter of the picture in that square? (Mickey or mouse)

m

From that square, go one square North, and 1 square North East.

What is the first letter of the picture in that square? (Apple)

a

From that square, go one square South West and one square South East.

What is the first letter of the picture in that square? (Pineapple)

p

From that square, go 2 squares North East.

What is the first letter of the picture in that square? (Sun)
