LDV/ Police

Gloucestershire Joint Standing Committee (part of report)

The Chief Constable answering whether the police should be armed, said that the Police force was not an offensive force but for Civil Defence. He added that Special Constables could carry arms for self defence. It is not nice to go out unarmed and encounter a machine gun.

The Chief Constable said he did not want the Specials to become the 3rd or 4th line of the Army. The Army and LDV were to carry out offence. Asked about the response to the arms appeal by the LDV, he said it had been good all over the county.

Crime/Black Out

Cirencester Petty Sessions.

Unscreened Lights

Mrs Muriel Burns of 3 the Flats Chesterton Lane was fined £1 for displaying a light at 11.15pm on June 10th. PWR Witts reporting officer.

Eli Wertheim of 25 Gloucester Road Stratton was fined £2 for a similar offence. He was represented by his wife. SC Harvey reporting officer. Mr Werheim had been warned on May 17th by SC Harvey and SC Short of Daglingworth.

Unauthorised Lights

Alfred James Rick a timber feller working at Oxford c/o Mrs Curtis Sapperton was fined 10/- per offence for displaying unauthorised lights and no red rear light. PC Holtham of Daglingworth reporting officer. Harold Sheppard of of Dudley Farm Ampney Crucis was fined 10/- for an unauthorised light (not properly screened) and £1 for not having a licence while driving in Oakley Road at 10.40pm. PC Holtham reporting officer.

Food Production/ Dig for Victory

Ministry of Food Bulletin No.5

We should be using salads and vegetables all we can . And we should be making sure of our future supplies by sowing or planting every inch of our allotments and gardens. Perpetual spinach can be sown now for Autumn and Winter use, and carrots, late keeping turnips and Swedes. Kale Savoy cabbage and sprouting broccoli can be planted now for the Winter and Spring.

ARP/ Propaganda

Ready for It

The ARP was not caught napping, the Civil Defence is calm and steady. The air raids did not catch us napping. We in the ARP have been preparing for them for a long time. Wherever the blow fell the ARP glided smoothly into action. The Nazi flyers who evaded our fighter planes' guns and barrage balloons found us ready for them. The sirens sounded and the shelters were filled.

Clockwork Precision

Wardens on the lookout flashed messages back to the Control Centre – where the bombs had fallen, what damage had been done and what help was needed. First Aid Posts were manned with doctors and nurses waiting ambulance cars were tuned up. Rescue parties and stretcher bearers were standing by. The Fire Brigade and Auxiliary Service were ready to do the work for which they have been carefully trained, repair gangs assembled to patch up ruptured gas and water mains. The Police kept order and messengers prepared for service if telephones were broken.

Everything worked with clockwork precision born of long months of intensive preparation. The districts missed by the bombs poured their personnel into the districts where help was needed, so that no place however remote was left unaided.

Although more than 5,000 people are killed and over 200,000 injured every year on the roads, in ordinary everyday accidents, we lose no sleep over them. The ARP service cannot prevent air raids but it can make the prospects of survival as great, if not greater than the chance of crossing an arterial road safely on a Bank Holiday. Take heart from the knowledge that the odds are several thousand to one against your being hurt by a bomb.

Food Production/ Jam Making/WI

Jam and Fruit Bottling

Sir – I attended the lecture on bottling given to members of Cirencester WI on the 28th June and hope the following will be of use. We have bottled tons of fruit in Cirencester Park during the last 40 years. We have always used Lee and Fowler's jars with glass tops and metal rings screwed tightly. We never use any sugar at all for the bottled fruit, only water but the bottles must be filled with fruit up to the lid.

In war time we use ½lb of sugar to 1lb of fruit for making jam. During the last war my housekeeper Mrs Pearson taught the Cirencester WI to make jam and this house became a jam factory. I hope her method of sealing the jam has not been forgotten, but in case it has I will describe it again. When boiling your jam, have two round pieces of tissue paper about 2 inches larger in diameter than the pots. Have a saucer containing skimmed milk. When the jam is ready for sealing take a piece of the tissue paper, wet the underside only in the skimmed milk. Clap it on to the pot of jam press down firmly all round. The milk acted as a

sort of glue. Take the other piece of tissue paper and use in the same way. You will then have your jam completely air tight and it will keep for two years if necessary. We have never used any other method and we eat only our own home-made jam and marmalade.

To put fat in the jam is disgusting and to tie up the pot with stiff paper and string lets the air in and the jam becomes green and unwholesome.

We are bottling peas and beans as well as fruit this year, only salt is added to the water in the case of vegetables.

Lilias Bathurst - Cirencester Park

Letters to the Editor

ARP

Colonel Pardoe on Air Raid Warnings (main points)

Local authorities have no more power to sound alarms than to send up aircraft.

The two sirens in Cirencester are operated by the Police and members of the ARP staff at the Report Centre. When they are to be sounded a code message is received from Fighter Command by the Police and ARP simultaneously. It is an offence to sound it without proper authority. During this phase of the war enemy aircraft are passing over by day and night for reconnaissance or to bomb military objectives. Mostly they fly high but the clear stillness of the Summer nights makes it sound closer. If the sirens sounded every time one of these aircraft was near country life would be brought to a standstill. During the day factories and munitions works would lose valuable working hours as they already have done.

At night people would be disturbed from valuable sleep to shelter. This would be bad for the nerves and particularly the children. Work on ARP would be intolerable.

Government policy is that alarms will sound in areas where there is a real danger of attack. In districts where danger does not exist and Fighter Command has knowledge of this the people are allowed to sleep on. This maintains efficiency. There will be the odd bomb dropped from aircraft off their target or lost but this is a risk. I feel sure this will be cheerfully accepted once the reasons are fully realised.

Editorial Comment

US participation

Editorial comment on the US Presidential election for November 1940 observes that neither party wishes to enter the war physically.

Orders for the Week

ARP/Evacuation Welfare/Entertainment

War News and Notes

The War

A long article reports RAF raids on German airfields in France. German planes raid England with no serious damage but civilians killed.

ARP/Schools

School Children in air raids

Gloucestershire Education Committee issued instructions some months ago that children should be dispersed to houses near the school. However with the changed circumstances of the war it is felt that there might not be enough time to disperse. Arrangements have therefore been made for schools to have early warning where there is the possibility of a raid To effect the dispersal which seems to be the most satisfactory way to meet the situation. Arrangements have however been made in some schools and will shortly be made in others for a portion of the school to be made as safe as possible for the protection of the children should a raid occur before warning.

Catarrh Weakens Our War Effort – announcement type advert for "Nostroline"

Spotlight

Salvage/ Road and Location Signs /Fire Sirens

Spotlight says that the scrap scheme is a good way to get rid of bits of machinery which have littered farms and the countryside for years. Could not a scrap merchant be paid to scrounge these things instead of risking arrest by removing them.

When signs which have been removed are replaced perhaps something will be done to clear up inconsistencies of spelling which existed. Until removed a few days ago there were two signs on the Gloucester side of the border saying Cherington and Cherrington, also Wootton Bassett and Wotton Basset. Incidentally a sign near Malmesbury in a picturesque cottage garden points to Llandrindrod Wells 93 Miles. Even if it has not been removed it would not give any clever Nazi invader much idea of his whereabouts.

Identity Black out.

In one Cotswold town I noticed posters outside two halls announcing forthcoming events in those buildings. With one exception the town name had been obliterated. The exception a WI notice. In the principal streets of the same town is a stationers with postcards entitled "Blank Parish Church" "Blank Market Place". These windows are near enough to the scene depicted to give a certain identification. We are frequently met with little yellow bills telling us where we can get our gas masks tested. More than one shop displays requests for re orders showing the name and address of the trader to whom the order was sent.

People should stop taking scrap objects from Council piles. They have been left with some sacrifice not for others to find useful. The dumps are private property to steal from them is disloyal and unpatriotic.

Why not give whist drive prizes back to be given to a local serviceman whose name is derived from a second draw.

Despite no new fire alarm system Cirencester Brigade called at 3.50pm were in Bibury by 4pm to deal with a hay rick set alight by children with matches. To get it out by black out

they pulled the rick to pieces and stamped on the last embers while water from the first aid tank was sprayed on their feet.

The National savings Thermometer has boiled over at £143,000 and started to climb again. Between £106,000 and £107,000 is now need to complete ¼ of million which should be reached by the end of August at the present rate.

ARP/ Safety

Warning to the Public

A warning is given to the public to stay away from crashed aircraft. The enemy are using delayed action bombs. The public should not take away bomb fragments as they may yield valuable information.

13/7/40

Agriculture / Labour

Gloucestershire War Agricultural Executive Committee

A large number of university students are available for temporary agricultural work in Gloucestershire. Farmers requiring these for harvesting or other agricultural work should notify the above Committee. Farmers are responsible for finding accommodation for these workers and the minimum agricultural wage is payable.

Berkeley House, Berkeley Street. Gloucester. 5/7/40

CD/ Invasion

Cirencester Urban District Council

Volunteers are urgently required to assist in the construction of defensive works against possible landing of enemy aircraft. The Council appeals to all those who are able to serve their Country in this manner to register their names at once at the Municipal Offices Cirencester, stating the days and times they can give to this work, and also whether they can provide a pick or shovel, or both. We are confident that, as on all occasions of national emergency Cirencester will respond nobly to the Country's call.

Prompt vigorous use has been made by the Ministry of Information of the Brewers Society gift to the nation of its entire advertising space in 400 national and provincial daily and weekly papers. (examples of slogans given)

Advertising /Invasion

Actual advert as above

What Do I Do -----

When I hear guns, explosions air raid warnings?

I keep a cool head. I take cover. I gather my family, with gas masks, and go quietly to my shelter or refuge room. I do not try to "have a look". I do not rush about alarming people. I remember that a lot the noise is good noise – our guns firing at the enemy. And I remember the odds are thousands to one against my being hurt.

Cut this out and keep it.

Space presented to the nation by the Brewers Society. Issued by the Ministry of Information.

Sport/ Evacuation

Famous racehorses including Godiva the winner of the New Oaks, are being sent to Ireland.

Rationing/ Food /Production / Preservation/ WI

There will soon be extra sugar for people who want to buy fruit and bottle or make it into jam. People who grow their own and applied before May 18th have already been given an allowance of 6lbs of sugar per ration book or ¾ of weight of expected fruit whichever is less. Now the Ministry of Food are making a special issue of an extra 2lbs per ration book after July 8th for preserving by those who grow their own, buy or are given fruit. If there is enough sugar there will be more for the Autumn plum crop.

For the 2lbs allowance, people must give their grocer a written statement showing the number of ration books in the house and stating that it will be used entirely for preserving fruit.

There is one other new sugar for jam allowance. The scheme run by the WIs has already been published covering nearly all the country districts. You do not have to be a member of the WI.

The new scheme is for the towns too. Surplus fruit disposal committees are being set up to run similar schemes to the WI. The fruit brought to the centre will be weighed and pooled and growers paid for the fruit sent to the centre.

In other cases fruit may be sent to local hospitals and institutions for jam making or bottling for the benefit of the inmates or may be sold or given away to people who agree to preserve the fruit in their own home.

Where there is no other way of getting rid of surplus fruit the owner of the same may get a special sugar permit for preserving the fruit himself. The Ministry of Food will then have the option of buying the jam when it is made. In this case and in the case of hospitals and institutions the allowance will be $\frac{3}{4}$ lb of sugar to 1lb of fruit for jam and $\frac{1}{5}$ th lb sugar to 1lb of fruit for bottling. If you want further details go to your local Food Office. But remember for the 2lb sugar allowance go to your grocer.

Morale/ Propaganda

For Women Readers

Shiver Sisters - How to deal with them by Mrs Robert Noble

Mr Harols Nicolson MP in a recent speech said that the armed forces, security services and LDV must feel behind them not a frightened troupe of "Shiver Sisters" or Chatterbugs" but a solid wall of national will power. "Shiver Sisters" is an expressive term for certain of our sex who though they probably do not realise it are doing useful fifth column work in the Country.

An Active Gossip

A "Shiver Sister" is the woman who combines a faint heart with a vivid imagination, takes alarm at the slightest set back and believes everything she is told because she has not bothered to think for herself. Unfortified by an inner courage she is always ready to believe the worst and her imagination fastens on every rumour for she is an active gossip.

Challenge Them

The way to deal with these women is to challenge them to produce the evidence for their assertions. In nine cases out of ten they will say that they have been told by somebody else. But usually they are silenced by this method. It is up to women themselves to prevent the shivers form spreading. They can do it by keeping calm and resolute and refusing to be alarmed by rumour.

Invasion/ Advice

Advice to the Civil Population – I the enemy comes.

Do not spread rumour

Do not block roads

Do not become a fugitive

Keep your head clear and your mouth shut

Stay put and sit tight

That is the advice Sir Frederick Cripps as County Controller tends to the civilian population of Gloucestershire. To do otherwise is to play into the hands of the enemy who if he sets foot on these shores hopes to see general confusion; roads thronged with helpless refugees as an admirable target for his airmen, refugees blocking roads and preventing the advance of our troops to deal with the attack. In all circumstances every citizen must remain at his post and not leave his work or his home without definite instructions from a responsible military or civil authority. You are safer indoors.

ARP/ War Production

In order to defeat the enemy's efforts to interfere with the production of war material the Ministry of Home Security urges that workers engaged in the war industries should as far as possible continue at work after a public air raid warning until it is clear that an enemy attack is actually imminent in the neighbourhood.

War Notes

Further notes on the general war situation

Crime/ARP/ Black Out

Cirencester Petty Sessions

William Flesh of 45 Apsley Road was fined £1 for displaying a light visible from outside on June 26th. Mr John Norton Townsend Air Raid Warden said he saw the light at 10.20pm tried to make the occupant hear but got no reply. A second attempt failed so he returned with a second warden and found the house in darkness. The defendant told him afterwards that he had gone to bed unwell at 9pm. PC Trull stated that he interviewed the defendant who lived alone the next night. The defendant said he went to bed unwell and left the electric light on. This caused the light.

The Holidays

All through our childhood there was magic in these words. As we grew older “the holidays” were looked forward to throughout the working year. But today – the German armies have overrun half Europe. Thousands have fled from their bombed and burning homes. Invasion threatens our Islands. We must put aside all thought of going away for holidays until this war is over and victory is won.

So let us speed up our war effort. Let us lend our “holiday money” to the Nation. Put every shilling into National Savings (Savings certificates, Defence Bonds, National War Bonds, Post Office and Trustees Savings Banks). The money is urgently needed to pay for the equipment of our fighting forces – for the defence of our shores, our homes, our lives.

This year make your holiday weeks National Savings Weeks!

Rationing/ Food Supplies

Ministry of Food

Register Now for Cooking Fats

From next Monday July 22nd margarine and cooking fats will be rationed. You must fill in the particulars on the “cooking fats” page of your ration book and also inside the front cover.

Then take the book to the retailer immediately for registration.

Butter and Margarine

With the coupons marked Butter and margarine you will be able to buy a weekly ration of 6ozs. You can buy all butter or all margarine or some of each. If you are registered for butter you need not be registered for margarine as you will use the same coupons as for butter.

Cooking Fats (or extra margarine)

With the coupons marked cooking fats you can buy 2ozs per week of lard or compound lard, or, if you wish 2ozs of margarine. (This is in addition to any margarine you buy with your Butter and margarine coupons) Dripping and suet are not to be rationed at present.

Tea

Tea is now rationed (2ozs per week) – You may buy it from any shop – no registration is necessary. To avoid small quantities you may buy one week in advance. Make sure that your shopkeeper takes the coupons from the first page of SPARE Coupons (coloured buff) next to the sugar page.

Issued by the Ministry of Food

Military Casualties/ Black Out

Two soldiers who had served in France were killed when their motorcycle collided with a cottage at Arlington Pike Cross Bibury. The accident happened in the blackout shortly before 11pm on Monday. They were Sergeant William Henry Bohlen aged about 30 of Penarth and Driver Ronald John Owen aged 21 of Whitchurch. Both served with the Royal Engineers.

Agriculture/ Food Production

(main points) Speech by the Minister of Agriculture Rt Hon R S Hudson

It is vital to grow more food. We have to import but we must limit it. Tens of millions face starvation in Europe but British farming with modern machines, methods, science and enthusiasm will help us overcome this fate. Farmers will have to be directed into what to

produce but at the same time will have to be provided with the machines etc. to do it. Red tape will continue to be cut and CWEACs given many additional powers.

ARP/ Agriculture

Don't go Bomb Sight Seeing

In recent raids over the South West bombs have been dropped in open country. Everyone should note that they can now be fined up to £50 for trespassing on agricultural land on which there is growing any crop other than grass. Remember this fact if you want to view the damage caused by the bomb. There has been an instance of an entire wheat crop of 25 acres being completely ruined by being trampled upon by sightseers. Hindrance to ARP work has also been caused by sightseers in towns. The public are asked not to interfere with the work of rescue parties etc through thoughtlessness.

Dig for Victory/ Allotments

Local Councils are pressed by the Ministry of Agriculture to increase the number of allotments. Where land acquired for other purposes is turned into allotments councils will receive a special grant of £2 per acre.

ARP/ Children

Air Raid Advice to Children

West Country mothers have it appears been telling their children to go home if an air raid occurs after school hours and while they are in the streets. This is bad advice. Children should be told to go to the nearest shelter.

As a result of this wrong advice children may wander about the streets during raids and refuse to go in the shelter when instructed by the ARP wardens. Mothers are asked to impress upon their children that they should go straight to a shelter when the sirens are heard. This is a safety measure because the children are naturally liable to be injured and not only by falling bombs but by Anti Aircraft shell splinters and falling debris. In addition it is possible that the children will hinder ARP work by running across the streets.

In school hours children should of course follow the instructions given by the teachers.

Mothers should also warn children about playing with whistles as they might be mistaken for warden's whistles.

ARP

ARP Hints (part of article)

The inhabitants of Tottenham have all been asked to place a bucket of water in the front porches or gardens to assist the AFS in forming a chain in the event of fire from incendiary bombs. To help further those householders who so provide water also place high up in their front window a white envelope or card so that the firemen will know exactly where to find the water. I feel that if local householders had this brought to their notice they would willingly cooperate in this simple means of preventing a huge fire.

Sale of garage equipment, machinery, contents of stores etc. of Cotswold Garage Cirencester.

Salvage

Over 2,000 village dumps for the collection of salvage have been established by Parish Councils.

Crime/ Black Out

Cirencester Petty Sessions

Black Out Regulations

Captain AJ Poole was fined £1 for showing a light at Daglingworth House. The light showed through drawn curtains and there was a gap along the top. When PC Holtham of Daglingworth and SC Smith went to the house the defendant refused to give his name and said he was a magistrate and an officer and asked what was the purpose of coming and insulting him like this. SC Smith corroborated and said he knew Captain Poole and had been out with him on duty as Special Constables. Captain Poole was very strict on the Blackout regulations

Defendant said that he had high regard for the Blackout Regulations as an RAF Officer and at home he had complete arrangements for Blackout. No light was visible 50 to 60 yards from the house. The Constables had knocked very hard and woken everyone up and roused his sick wife. He had invited both men in to examine the arrangements but they refused.

Messrs John Jefferies were fined £1 for an employee allowing a bonfire to blaze at their nursery at City Bank. Mr J E Jefferies said that employees were instructed to bank out bonfires at night. This one must have burned through.

Kathleen French of Whiteway Chedworth was fined 10/- for leaving a car on the highway outside her residence without lights.

National Service/Auxiliary Territorial Service [ATS]

20,000 Women Wanted in the ATS

A recruiting drive has been going on in Cirencester and District during the past week. Details of opportunities pay etc given. Further information obtainable from ARP Offices (Municipal Offices) and WVS Office Dollar Street or the Labour Exchange.

Invasion Advice

If the Invader Comes

Hitler plans to invade Britain. If his Nazi hordes succeed in crossing the sea they will be rolled back and smashed. The Public can make the job of our fighting men much easier by remaining where they are. "I'm staying put" must be your slogan. (The article goes to list the instances in France of refugees holding up the army)

Spotlight

Agriculture/ Food Production/ Education

Spotlight points out that we have often admired the handicraft work in elementary schools, but is it necessary to continue the art of potato printing. One local school recently acquired several pounds for the purpose. If every school did this it would mean the loss of tons from next winter's crop.

Rationing /National Milk Scheme

Ministry of Food Cheap Milk for Mothers and Children

The National Milk Scheme provides 1 pint of milk a day at a reduced price or free for every expectant and nursing mother and every child under 5years not attending school. Get an application form from the Milk Office at your local Food Office (The post office will give you the address) or through the Child Welfare Centre, Health Visitor or District Nurse.

Fill in the top half of the application form and then have it signed by a responsible person (such as a teacher or clergyman) who knows you well. In the case of an expectant mother the form must also be signed by a doctor, midwife or Health Visitor. Post the form to the local Food Office. It will take ten days before you receive your milk permit.

Milk at 2d per pint.

All expectant mothers and nursing mothers and children under 5years not at school will be able to get milk at 2d per pint.

Milk free of Charge

Mothers and children are entitled to free milk if the income of both parents together is less than 40/- per week or if only one parent's income is less than 27/6d per week. These limits are increased by 6/- for each non-earning dependant. Free milk will also be supplied to mothers and children in households where the householder is receiving public or unemployment assistance or a supplementary old age pension.

When applying for free milk you must also fill in the lower half of the application form after the top has been filled in and signed as explained above.

Keep this announcement to help you fill in the application form.

Military Casualties

Casualty lists for Wiltshire and Gloucestershire are given but they only include names and numbers. No addresses are given.

Invasion/ Housing

Emergency defence works now have priority over all other building operations. Shortly no private building activities will be permitted except under license.

Food Supplies/ Rationing

Hotels and restaurants are now prohibited from serving more than one course of either meat, game or poultry or fish at a meal.

All binoculars suitable for service use now in the hands of retailers and dealers are being taken over by the Ministry of Supply at average prices below the current retail price.

Local War News/POW

News has been received from the Military Attache in Berne that 2nd Lieut. J A Goshen of the Royal Horse Artillery has arrived at Purrentrun 50 miles inside the Swiss frontier after escaping from a Prisoner of War Camp at Lille. He has been interned but the War Office have appealed for his release under the Hague Convention. He had been missing since June 12th when his regiment was surrounded at St Valery. He is the youngest son of major General and Mrs Goshen of Macaroni Downs Eastleach.

Pte William H Buckland of the Gloucestershire Regiment youngest son of Mr and Mrs Herbert Buckland of Bowley Villas Preston, reported missing on June 13th is now said to be a POW. The same applies to his friend Pte L Taylor of the Gloucestershire Regiment who before joining up lived at 76 Melmore Gardens.

Food Preparation

To Save Sugar – when stewing fruit or making pies add bicarbonate of soda. This can save up to a third.

Food Preparation/ Supply/Rationing

When the German attack on this country is repulsed and the enemy is defeated bigger rations of tea, sugar and perhaps fats will be available for the Winter months. That was the definite hope of Mr Robert Boothby MP Parliamentary secretary for the Ministry of Food.. Also the new white loaf with added proportions of vitamin B1 and Calcium was to be introduced by the Government in the next few months. This together with the National Milk Scheme will lay the foundation of a national food policy which will have a permanent beneficial effect on national health and be hailed by scientists all over the world. The vitamin B1 in the loaf will make the white loaf equivalent to the wholemeal loaf.

Internment

Aliens of German and Austrian origin numbering 23,500 have been interned including 20,000 men of whom 12,500 are in camps while 7,500 have been sent overseas.

Military Welfare/ Dunkirk

Thanks to Cirencester

As the Brigadier Commanding the Infantry Brigade which has just left the district I should like to take this opportunity of thanking everyone for the great kindness they have shown to the troops under my command during our stay here. We have been in many towns in great Britain recently, and I can say quite honestly that nowhere have we been so well treated as in Cirencester, everybody has gone out of their way to help us.

I have heard personally from all the troops how much they have appreciated the canteens which have been opened for them in many places. I realise the amount of work involved in these canteens and so do the troops themselves.

I only hope that at some future date it may be our good fortune to return to this neighbourhood.

B G Horrocks Brigadier

Invasion Advice

What do I do if I hear news that the Germans are trying to land, or have landed?

I remember that this is the moment to act like a soldier. I do not get panicky. I stat put. I say to myself “Our Chaps will deal with them.” I do not say “ I must get out of here”. I remember that fighting men must have clear roads. I do not go on the road on my bicycle in my car or on foot. Whether I am at work or at home , I just stay put.

Cut this out - and keep it Space presented to the Nation by the Brewers Society

Council School/ National Savings/Dig for Victory/ Military Welfare/ARP

Sir William Marris K.C.S.I. K.C.I.E. distributed the Dakin Trust Prizes at Cirencester Council Boys School. Mr Vanstone (Head) in his remarks mentioned the National Savings Group with 280 members including 57 parents and friends. Since January the group had subscribed £290.

As part of the Dig for Victory campaign the boys had taken $\frac{1}{4}$ acre as an allotment in Burford Road which was now yielding a vegetable crop.

Book craft was abandoned due to a shortage of materials. Knitting had taken its place with all 270 boys taking part, knitting comforts for the troops. The head's collecting box for odd coppers had raised £15 for buying wool. Miss G F Cook supervised the boys. The comforts were sent to the fighting forces with Cirencester lads getting priority. Letters from grateful recipients were on show.

After giving the address Sir William observed the "open day" when parents visited the school. During the afternoon a display of physical training exercises was given in the play yard some of which under Mr J T Evans who is also ARP Coordinating Officer – demonstrated with two practice bombs how to deal with incendiary bombs by shovel rake and by stirrup pump.

Editorial

Morale/ Propaganda

The editorial says that Churchill has given his answer. The war goes on until decisive victory. German raids have been ineffective so far compared with the RAF. Total civilian casualties for the month 336 killed 476 injured. The enemy have lost 168 planes approximately 450 pilots and crew. We have enough food to last to the end of the war however long.

Enemy Action

West Country Air Fight

At midday on Thursday the sound of a bomb and trail of black smoke across the sky caused people returning to work after lunch to look skywards for a raider. None seemed visible just training planes about their normal work. Then one was spotted. Anti aircraft fire from East to West showed the track of the raider. Other planes gathered in the sky and hamlets and villages watched the dog fight. The raider was brought down in a field. The crew landed by parachute. Three were wounded one's parachute did not open. They were very young and ready to give themselves up. One was taken by a young girl who ran to him as he landed on the lawn of a house. Two others were captured by the Home Guard who were soon on the scene. A fourth crashed to his death. The school mistress of a neighbouring village said the

Spitfires blazed around like angry wasps. Her attention had been brought to the fight by the children who knew all the aircraft in the sky. They watched until the warning sent them to cover. Those who lived nearby took a long time to reach safety anxious to see the end.

Cirencester’s War Effort

Members of the Council stood in silent tribute to those “serving on the home front”

Domestic Air Raid Shelters

As Cirencester is not designated by the Government as a vulnerable area only emergency shelters for those caught in the street were provided. Under the recent decision of the Minister of Home Security, the Local Authority could assist those whose income was less than £250 per annum (£350 if having 4 children) to protect their house in accordance with the

pamphlet. "Your Home as an Air Raid Shelter" produced by the Ministry. Most of the costs to be met by the Government. There is evidence that Cirencester residents would cooperate in a scheme to build communal shelters on a voluntary basis, digging and laying bricks. A petition had already been received from Chesterton.

In a scheme for communal shelters the Local Authority would (a) Employ professional men to advise householders on putting the Ministry pamphlet into practice. (b) Acquire relevant materials to distribute to householders. (c) Help those incapable of doing the work themselves and encourage neighbours to assist each other.

The Government Order to clear attics was read by the Clerk. It was decided to circulate householders with a leaflet about the Order. It was a good ARP precaution and provided salvage.

The Compulsory Salvage Order for populations over 10,000 was mentioned. The Town already has the scheme but householders would be circulated to impress its importance. Amounts so far:

Paper 66 tons 11cwt value £253-9s-7d, Scrap metal 49 tons 3½ cwt value £71-0s-4d, Bones 1ton 4cwt value £7-14s-6d, Total value £334-12s-10d. Labour costs were £231-9s-10d profit to date £103-3s. these figures did not include the scrap metal sold by the Council in December 1939 i.e. £68-6s-10d this was scrap from the Waterworks. The guns were gone for scrap except the Russian gun. A special collection of old iron yielded 26 tons value £50. The Surveyor asked for £25 to replace one baler in use during the First World War!

Permission was given.

YMCA Canteen

An extra room of the museum is to be used to help the overflow from the canteen. On some Saturday nights 2,000 cups of tea are served. Exhibits would be moved with care.

National Savings

The National savings Scheme was a credit to the town. Mr Rumbol paid tribute to Miss Leigh for her invaluable work done in the clerical and accounts department

Kitchen Front/ Rationing

Lord Woolton, Minister of Food has decided to make further extra allocation of sugar for jam and preserving the promised big plum crop. During the week beginning August 12th with sugar coupon No. 6 you will be able to obtain 2½ lbs of sugar an extra 2lbs allowance for jam. Similar declaration to previous with number of ration books in the house. This allowance will not alter arrangements made by the Fruit Preserving Depots set up by the WI and Fruit Disposal Committee set up in town districts by the Chairman of the Local Food Control Committee. Growers who have surplus produce should get in touch with the Chairman of the Food Control Committee. No fruit must be wasted.

Kitchen Front/Food Production

What to do with the Plum Crop

We think mainly of jam making, bottling or pulping. You can economise on space and sugar if the plums are stoned. The kernel is a valuable food so it is a good thing to crack the stone and add the kernel to the preserve. A less known use is for chutney(followed by recipe)

Plums can also be dried (followed by method)

Propaganda/Germany

W Glenvil Hall MP for Colne Valley former Labour Candidate for Swindon writes a long article on the way the Nazis are to rob the larders of occupied Countries.

Salvage

Article from Rt. Hon Herbert Morrison calling for an all out effort in his latest Salvage Campaign appeals to clean out attics and lumber rooms, burrow in cupboards and under stairs, clear out tool sheds, delve into garages, look for old gadgets, ornaments and bits and pieces of clutter worthless to the individual but an enormous value to the nation. Make salvaging bones, metal and paper a daily task. Turn out love letters we will make them into cartridge wads; give us bones and we will produce explosives produce tin cans and we will transform them into tanks; throw out garden tools and we will manufacture guns. Our main wants are paper and cardboard. Household bones and scrap metal. Many Councils have good schemes underway others do not so keep your Council up to the mark. 10 million households are in the campaign.

Social Cooperation/ Evacuation

For Women Readers – Good Neighbours by Mrs Robert Noble

The war is breaking down social barriers knitting circles etc. are making people mix who would not have done so before. They are now discovering what nice people their new acquaintances are. No one knows when they may need a Good Samaritan many difficulties are lessened by a comparison of experience. Billeting is a test of goodwill. There must be give and take. The housewife does not expect the guest to do the housework but there are ways to help by tidying the room, keeping the bathroom as it is found and being punctual for meals. Shyness can be a problem but little acts of neighbourliness do break down the barriers.

Crime/ Black Out

Cirencester Petty Sessions

Lady Knutsford of Siddington House was fined £10 for showing lights. It was reported by J M Adamsthwaite of the Home Guard. He said three lights were showing. He threw stones at the window when there was no reply to the bell. Lady Knutsford appeared and said she had not put lights on until she heard the bell. Mr Adamsthwaite said that the one light he saw was not screened at all. His brother Maurice corroborated. PC Waldron of South Cerney said that when interviewed on July 13th she said " I know nothing about it, I was not at home. Lights will not stop the war, and you can caution me all you like." The chairman Captain Foyle Fawcett said he looked upon this as a bad case.

Florence Saul of Chedworth was fined £1 for a similar offence. PC Hughes reporting officer. Archibald Steel of Melmore Gardens fined £1 with 3/6d costs. SC Pless reporting officer.

Edward John Coutts of Purley Road fined £1. PWR Witts reporting Officer. Mr Coutts said as a rule he went to bed in daylight but on this occasion he had omitted to draw the curtains.

Cyclists fine for having no lights: Arthur B L Anderson of Somerford Road fined 10/-, Alexander Allen of Siddington fined 10/-, William Edward Fanthon a soldier fined 5/-.

Making Ends Meet (illustration of a candle burning at both ends)

Think of Britain as one great factory. Working at full pressure its output of goods can be vastly increased. But from the entire output must come both the needs of the fighting services and the requirements of the rest of us. The Services must come first.

The war must be won and in the shortest possible time. This means – and we must face the fact - that you and I must go without many things we used to enjoy in peace time. The vitally necessary war supplies must be produced in ever increasing quantities. The money we don't spend on our own personal requirements and pleasures can then be lent to the Nation to be devoted to Britain's vast war effort. If everyone with good pay coming in continues to spend on things they can do without, our resources will be in danger of speedy exhaustion. Prices will go rocketing up and the arming and equipping of our forces will be seriously hampered. We must make ends meet but not by the method of burning the candle at both ends. There is no time to be lost. Lend the full weight of your money to the struggle now. Invest as much as you possibly can in National savings Certificates , Defence Bonds and in the Post Office and Trustees Savings Banks.

ARP/RSPCA

Pet Shelters

A Dustbin "Dugout" for pets.

The RSPCA suggests that dog and cat owners construct a splinterproof shelter for their pets. Secure a large dustbin half bury it lengthways in the garden. Heap soil over it to a height up to twelve inches, remembering to keep the entrance clear. Put a stout wooden strut in to prevent collapse. When completed it will look a miniature Anderson Shelter. The lid with air holes in it should be placed over the entrance as protection and a fairly high mound of loose earth piled a few inches in front of the entrance. Simply constructed and involving no cost this little "dug out" will safeguard the household pet from bomb fragments and shrapnel.

Kitchen Front/ Food Preparation

Ministry of Food

This Week's FOOD Facts

There will be more adverts in this series. It will be well worth your while to collect them. As each appears, pin it up in your kitchen.

Do you throw away scraps of food rather than bother to make them up? Do you have odd snacks during the day? Do you eat just a little bit more than you need to at meal times? In peacetime these indulgences don't matter. In wartime they matter vitally! We must save the Nation's money and free the cargo space which is needed for munitions. Remember that this is not only a war in the air and on the land and sea, but a war in the kitchen as well.

ON THE KITCHEN FRONT

Save sugar Stew apples with chopped figs – it's a new way a nice way, and you'll need less sugar.

Thick soup Use the remains of today's rice pudding to thicken tomorrow's soup.

Eat more plums Plumbs are in season now. Make full use of them and less of the tinned fruit which should be kept for Winter use.

Remember that if everyone in Great Britain wasted ½ oz of bread daily we should be wasting 250,000 tons of wheat a year and that 30 wheat ships would be required to carry that amount.

Listen at 8.15am every morning for Kitchen Front News (followed by) Recipe for Cauliflower Cheese. Which ends with the following note. Stale bread baked in the oven and grated is excellent for this dish. If you boil the cauliflower, save the water for soup or gravy.

Casualties/ Military

Private Thomas Greenwood of the London Regiment was killed when his motorcycle collided with a car in Watermoor Road. Two children saw a dog run across the Road.

Food Supplies/ Milk

More than 1,100,000 person are now receiving milk under the Ministry of Food's Milk Scheme.

Enemy Action/Casualties

German Airman Buried in West Country Cemetery

Honoured by the RAF

On Tuesday last week a German Airman victim of the "vaulting ambition" of totalitarian dictators was buried in a quiet hillside cemetery overlooking a beautiful West Country valley. He was Sergeant Heine No. 65120 aged 37. Five days earlier war waged in the sky above this spot, for he had come to rain death and destruction upon this fair land, but had himself met the fate designed for others. Now there reigned peace and those who had forced him from the skies gave his body burial with all the honours accorded to a brave enemy.

Members of the RAF covered his coffin with the emblem of his country and placed a wreath of asters, carnations and roses, with an RAF tender as a hearse conveyed it to the cemetery. Here six Sergeants - his equals in rank bore it to the grave and after it had been committed to the earth by the Vicar of the Parish, three volleys were fired over the open grave and the "Last Post" and "Reveille" was sounded. Meanwhile the RAF pilots soared overhead and dipped in final salute.

Many hundreds of people from the lovely countryside were present and to them the Vicar said that it was not an ordinary funeral. Many might be puzzled to reconcile Christianity and its doctrine of love and goodwill with war and the destruction of human life. By that service they showed that this country still recognised the sanctity of human life and that though that airman was fighting against us, we wished him no ill but wished that his soul might rest in peace.

POW Welfare

Letters and parcels for Prisoners of War.

The Red Cross and St Johns War Organisation has issued a statement showing what may or may not be sent to POWs in Germany. All correspondence to and from prisoners of war goes post free. Photographs may not be included. Letters to prisoners should not exceed two sides of a sheet of note paper – they should be posted in the usual way, but without a stamp and not sent to the Red Cross organisation. The sender should write his name and address on the back of the envelope unless a member of H H Forces in which case he must give the name or address of a friend or relative in this country, and arrange for letters so addressed to be forwarded to him. Letters cannot be sent to a prisoner unless the camp address is known.

The form of address is.

Prisoner of War Post

Kriegsgefangenenpost

Service No. Rank, Name, British POW (number if known) Camp in Germany

No stamp is necessary.

No attempt should be made to communicate with Prisoners through people in neutral countries. No telegrams may be allowed. Relatives may send by parcel post (no special label is needed) suitable clothes and toilet accessories to the Clothing Section, St James Palace, as soon as the permanent camp address is known. Only one 10lb parcel (not counting packing may be sent) The only food allowed to be sent is contained in the Red Cross standard Parcels which the Censor rigidly controls. Food (carefully analysed by a dietician) soap, tobacco and cigarettes, costing approximately 10/- a week are sent to each prisoner, whether or not financial contributions are received for individuals books, music, packs of cards, games, sporting equipment etc. may be sent direct to prisoners through firms holding a permit to send printed matter abroad.

Home Front/Food Production /Rationing

Food Facts in War Time

Some things you ought to know: Rationed fats for vegetarians. Vegetarian butters come under the heading of "margarine" says the Ministry of Food and they are to be rationed like ordinary butter and fat. But this does not include nut suet which can be bought ration free.

British Herbs Only

Sage mint parsley and other herbs by housewives for flavouring their dishes will all be home grown in the future. The Ministry of Food has stopped importing them since we can produce plenty for our needs in England.

Price Control for Peas

The price and scale of threshed peas grown in England and sold for human food are soon to be controlled by the Ministry of Food. Top wholesale and retail prices for dried home grown peas, sold loose or packed, will be fixed. All traders will have to have a license to deal in

these peas and should apply to the Ministry of Food Cereals Division 10 Smith Square London SW1.

Take You Ration Book

Hop pickers and other people leaving home must remember to take their ration books with them. If they have left whole pages of coupons at any shop they must get them back and put them in the ration book again. During the week before they go, travellers should take their ration books to their local Food Office to arrange for the book to be used at the shop where they are going. If they don't do this before they leave they will have to go to the local Food Office when they get there.

Tea By Post

Parcels of tea of not less than 2lbs can now be supplied by post. Previously parcels had to weigh 3lb or more. It is still possible to use four coupons at once for tea coming by post – the coupon for the current week and the three following.

Salvage

In long article by Mr R C Morrison MP Chairman of the Inter- Departmental Committee on salvage. He emphasises that Salvage is something more than a war time fad it must be regarded as an important part of our economic system.

ARP

Latest ARP Hints

Minimise the effects of flying glass by using textile net or transparent film affixed to the whole surface. Strips of adhesive tape or stout paper will give good protection if fixed at intervals of not more than 6 inches. Carry your Gas Mask. During a raid don't touch alcohol or drugs not even aspirin. Take into the shelter - a hot drink, a slab of chocolate some figs, barley sugar, oranges and if necessary a 24 hours feed for the baby.

Food Supply/Milk Scheme

Over 1¾ million are getting cheap or two-penny milk under the Food Ministry's National Milk Scheme.

Agriculture/Food Production/Silage (poster advert)

I cannot guarantee that Dairy Farmers will get the quantity of imported feeding stuffs they normally use. I think of no better insurance than Silage.

Ministry of Agriculture

Make Silage Now

Watch your local press for details of silage demonstrations in your district.

Be Warned in Time!

The only way you can make sure of bringing your cattle safely through the winter is by producing your own feeding stuffs – high quality silage from aftermath and second crop seeds. It's easy and cheap to get or make a silo – and stock thrives on silage. Get in touch with your WAEC they can tell you anything you want to know about silage making.

Issued by the Ministry of Agriculture Fisheries and Food.

144 raiders Down

The enemy's great losses on Thursday. The bag for the week 381

LOCAL War Notes

Do you know Pte Walker of the Gloucestershire Regiment from Cirencester or near? He is a POW probably now in Germany, having been captured at or near Dunkirk. His friends will be glad to hear he is unwounded cheerful and well. This comes from an Officer who returned home after escaping from prison camp in France where he met Pte Walker. Independently both had made abortive escape attempts. They now made one jointly. The Officer and another Officer were to try first. If they succeeded Pte walker and a friend were to follow after ½ hr. The four agreed to meet at an agreed rendezvous after 24 hours. Pte Walker and his friend failed to turn up and it is presumed that they were caught and are now in Germany. Some letters brought back by the Officer may be examined by Bona Fide friends of Pte Walker.

Pte Sydney Douglas Harper of 5 Council Houses Quenington has been reported missing. He is 29 and in the 2nd Btn Gloucestershire Regiment. He is the eldest of four brothers in the Army. Before the war he served 6 years in India.

Religion/Salvage

Get Rid of Junk

In any good many of our churches and church yards there is plenty of scope for what housewives call "a good turn out" and it will be all to the good if the present urgent demand for scrap metal, waste paper and other normally unconsidered trifles lead to parochial authorities getting rid of their junk. There can be few of the more than 12,000 parish churches in England which are not harbouring long discarded Hymn Books, surplus copies of parochial notices and printed matter of one sort or another which is entirely valueless from either utilitarian or an antiquarian point of view.

GO TO IT

Such impediments might well be delivered over to the pulper to enter upon a new lease of life instead of being allowed to clutter up a vestry cupboard or some out of the way corner of the church. Our churchyards tonight apart from such "big game" as iron railways with no claim to artistic merit, yield quite a fruitful and nationally valuable quarry of odds and ends of metal (eg discarded tools old metal flower vases and the like) which might prove useful in the Empire's war effort against evil. In any case the clergy and churchwardens may well "go to it" so far as salvage is concerned.

National Service/ Conscientious Objection

Exemption Granted

A Cirencester clerk formerly with the Gas Company now a full time lay evangelist for the Jehovah's Witnesses was given total exemption from military service as long as he continues his lay evangelism. It was granted to Harold George Brooksby of 19 Purley Road by the South West Tribunal Bristol.

Fund Raising

Cinemas are to buy Spitfires. All 14,000 employees of the Gaumont British Picture Corporation are contributing to a fund to purchase a Spitfire for the RAF.

ARP/ Black Out

It is not necessary to extinguish all lights on vehicles when an air raid warning is sounded: headlamps only should be put out. Vehicles engaged on military, police and civil defence can use headlamps.

Food Production/ Pig Clubs

Cirencester FPC

At a meeting of Cirencester Food Production Club on Thursday evening in the Municipal Offices it was started that a Communal Pig Club would be formed in Cirencester. The first in the County. The WVS had canvassed the town and 1,1330 households had agreed to give kitchen waste at 4lbs per household per week, that was 2¾ tons of waste. The Salvage Committee of the Council had agreed to try to undertake the collection. An ideal site had been offered. The minimum and maximum holding should be 10/- and £2. They hoped to produce 80 pigs a year. "Quite apart from the fact that they would get more food for the country and for themselves, the project appeared to be a good one financially." The Committee was appointed. Mrs Chester Master, Messrs W T Andrews, A S Barnard, A Lusty, F Mustoe, F J Ponting and J V White with power to add to the numbers.

Miss Copplestone from the Board of Education concludes her series of five lectures on Wartime Cookery at the Hut on Monday evening.

War Damage/ Enemy Action

War damage Claims

When property is damaged by enemy action and the owner is able and willing to do repair work form V.O.W.1 must be obtained from Mr A Furniss the Council's Housing Surveyor or the District Valuer. The form must be returned to the valuer within 30 days. No claim under £5 must be submitted. If the Local Authority need to make temporary repairs to avoid risk to health they may do so at any time without reference to the owner. If possible the owner should commence repairs immediately and inform the Housing Surveyor. When the owner makes good the repairs his claim will be filed against the Government to be dealt with at the end of the war. Where the Local Authority does the repairs they will claim against the owner but the owner can file against the Government. The amount of compensation will be assessed by the District Valuer. The V.O.W.1 form contains space for claims of over £5 for furniture and effects.

Spotlight

Fire Brigade

Spotlight comments on the decision re Fairford's application for a fire trailer.

"London fiddles while Fairford burns."

ARP/Steel Helmets

A correspondent want to know when ARP workers other than Wardens are to be supplied with "tin hats" and distinguishing armlets. She – it is a lady this time- points out that while others take shelter ARP workers have to expose themselves to everything that is falling. In the dark they are frequently challenged and ordered off the road by Wardens and Police. They have to show their passes only possible by torch-light. She threatens to pack up if nothing is done.

'Ciceter' Spitfire

A few weeks ago I mentioned that someone had mooted the idea of the public of Cirencester subscribing to buy a Spitfire named after the town and flown if possible by a Cirencester pilot. The first £1 has been donated. Provided entirely in pence by people sheltering in one of Cirencester's emergency shelters during an air raid warning one day this week. Many were passengers of two buses immobilised during the warning. A Warden pointed the way to the safety of the shelter. The people wanted to show gratitude for shelter and collected £1. The Warden accepted it and said would they like it to go to the Red Cross or the Spitfire. They chorused Spitfire.

Road Safety in Raids

During recent air raid warnings particularly night "red" warnings people are walking in roads. This is dangerous as many ARP personnel are travelling the streets on cycles etc with no light in red warnings. This is dangerous to ARP workers and pedestrians.

BRCS

A BRCS penny a week scheme is being brought in Cirencester. A number of businesses in fact 10 in all have already begun stopping 1d a week from employees' pay (on a voluntary

basis). Members of the BRCS will be calling on other businesses during the next few days to explain the scheme.

Street Lighting

Spotlight hopes that Cirencester will take up the Government's scheme for providing dim street-lights. The cost of the conversion is 15/- to 20/- per lamp. Some authorities believe that the amount of light produced does not justify the cost. They can stay on during an air raid.

Food Supplies

Traders wishing to import tapioca should apply to the Ministry of Food, Meadow Croft Hotel, Colwyn Bay, North Wales.

Letters to the Editor

ARP/Sirens

A Tetbury resident complains about the ineffective whistle system of air raid warning. When will the old system be repaid or replaced.

Crime/Black Out

Cirencester Petty Sessions

John Henry Hulse taxi owner of Malmesbury was fined £1 and 2/6d costs for leaving his car with unauthorised lights. It had bright side lights and rear lights not blacked out at all. The car was outside Kemble Village Hall at 11.25pm on July 26th. PC Jefferies reporting officer corroborated by SC Purnell. Christopher A Byrne Post Office Engineer was fined 10/- for allowing light to show from a kiosk, he went to. PC Rymer stated that at 3.05am on July 12th in consequence of a complaint from an air raid warden. He went to Rodmarton where he found a bright light showing from the kiosk which was locked. Witness broke a pane of glass and extinguished the light. The brown paper used as blackout had been pulled back apparently by someone using the kiosk in daytime. PS Edmunds said that on July 16th he saw the defendant at the Police Station and told him about the light having been reported in the kiosk. The defendant said that on the afternoon of the 11th he visited the kiosk to repair a fault, switching on the light to do so. When he went out he forgot to turn it out, even so an automatic cut out should have done it. This was later found to be in need of repair. He did not notice that the blackout had been left out of place in the corner of the window. PS Edmunds said Mr Byrne expressed regret and concern. The defendant said he was wholly responsible he had been called to another matter the nature of which he must not divulge in court. There had been a thunderstorm so before leaving the kiosk he had made certain tests. Perhaps sunlight stopped him noticing the small light as he rushed off to the other matter. The Chairman felt that there must be a conviction but had sympathy with Mr Byrne. Blackout offences : Robert Crittenden, manager was fined £1 for a light shining from the shop in Cricklade Street at 10.30pm on July 31st. PWR Witts reporting Officer. George Morgan of Chester Street Stratton was fined £1 for a similar offence at 11pm on July 26th. SC Harvey of Daglingworth and SC Short reporting officers. Thomas Cooper of Chester Street Stratton was fined £1 for having lights showing on July 26th at 11pm. SC Short reporting Officer.

New regulations (Failure to immobilise a car when leaving it)

Peter Thomas Lucas parked his car outside Viners Restaurant on July 15th. The case was dismissed with 4/- costs as it was the first case under the new regulations. PWR Legg and PC Smith reporting officers. Frederick W A Cowden of Victoria Road was fined 5/- for a similar

offence. PC Jefferies reporting officer. Cyril Man of Cheltenham was fined 5/- for a similar offence. PC Hughes reporting officer (The car was left at Stow)

Agriculture/Food Production

Prof. R Boutflour Executive Officer of the GWAC told the Gloucestershire branch of the NFU in Gloucester on Saturday that Gloucestershire farmers would need to plough even more land to provide food.

Food Production/ Jam Making

There is no truth in the rumour that the Ministry of Food is sending round inspectors to see the jam made with the special sugar ration. There are no "jam snoopers".

Your Home as an Air Raid Shelter.

Under a recent decision of the Ministry of Home Security the Council may now assist certain persons-see-below-to increase the protection afforded by the houses they live in on the lines laid down by the Ministry in their pamphlet "Your Home as an Air Raid Shelter" The assistance may take the form of :

(1) Free expert advice, how best and most quickly to carry out the recommendations of the Ministry; (2) Free supply of materials and (3) In certain cases the provision of free labour. Application Forms may be obtained from the Municipal Offices Cirencester during the usual office hours and must be returned not later than 30th of August 1940.

Persons Eligible for assistance :

Persons whose occupations are compulsorily insurable under the National health Insurance Act, Persons not compulsorily insured under the NHI Act who are mainly dependant on earnings (or pension) not exceeding £250, an amount which may be increased by £50 for each child not over school age in excess of two.

Advertising/Propaganda

To Advertise is an Indication of Strength

It is a sign that the adviser is

Strong in his conviction that goods are worth advertising.

Strong in his knowledge that they will appeal.

Strong in his opinion to be able to satisfy.

Strong in his position to be able to supply.

Strong in his determination to "Carry On"

Strength Creates Confidence

Strength and Confidence are necessary in order that we may achieve Victory.

BE STRONG in consistent ADVERTISING you will be doing a National Service.

Agriculture/Food Production/Silage (poster advert)

I cannot guarantee that Dairy Farmers will get the quantity of imported feeding stuffs they normally use. I think of no better insurance than Silage.

Ministry of Agriculture

Make Silage Now

Watch your local press for details of silage demonstrations in your district.

Be Warned in Time!

The only way you can make sure of bringing your cattle safely through the winter is by producing your own feeding stuffs – high quality silage from aftermath and second crop seeds. It's easy and cheap to get or make a silo – and stock thrives on silage. Get in touch with your WAEC they can tell you anything you want to know about silage making.

Issued by the Ministry of Agriculture Fisheries and Food.

Followed by detailed description how to make your own silos from sheep hurdles, wire netting, corrugated iron, straw bales or pits.

Money is needed to forge the weapons of war . Every pound that flows in from the sale of Defence Bonds increases the flow of molten steel from the crucibles and furnaces, guns, shells, tanks, ships and planes will cost the nation less if we pay as we go. Put every pound you can spare into Defence Bonds. Defence Bonds are issued at £5 each and begin to interest at 3% from the date of purchase. What better security could you have in time of war – your own safety depends upon the rapid equipment of our ever-increasing forces.

Buy 3% Defence Bonds – save regularly week by week.

Go to a Post office or your bank and put your money in Defence Bonds, savings Certificates or National War Bonds; or deposit your savings in the Post Office, trustees savings bank.

Join a Savings group and make others join with you.

Propaganda

Why are we fighting?

Article on the Nazi strategy of using blood of women and children.

Agriculture/Silage

Another appeal for silage includes – I acre of reasonably good pasture will yield 3 tons of high quality silage if properly pressed down in a container and sprinkled with diluted molasses. This is the only material that can replace expensive dairy cake and can be fed at a rate of 20lbs for each gallon of milk. This quality silage can actually be used for the production of 3 to 4 gallons of milk; only above this would concentrates be needed. As a general rule dairy cows and fattening stock will receive 35 to 45 lbs.

National Service/Conscientious Objectors

Two Sons Serve Two COs

At the Bristol tribunal on Thursday last, Colin Frank Rimes of Stratton Mill said he regarded it his duty not only to England but to the whole world. He believed in non violence. To take a man's life, even in war, was opposed to the teaching of Christ which he accepted. It would be equally wrong if he assisted the war in any way as for instance, if he were conscripted to do work to make the war more possible and thus helped other men to do the killing which he would not do himself. War was a contradiction of the Christian faith and he would accept only total exemption.

His father told the tribunal that he had four sons. "They are all good lads", he said. Two were conscientious Objectors :the other two were serving, one having given up his farm in Australia and the other having left his father's business to join up. The applicant was retained on the register on condition that he remained in his father's business of producing cattle food.

Local War News/Personal

Can the Officers who escaped from a Prison camp give any information about my son (missing) Cpl R H Tanner Gloucestershire Regiment. Mrs Tanner Barrington Downs, Eastleach, Lechlade

CRDC / Evacuation/ARP

Cirencester Rural District Council - Report by the Clerk on the Evacuation Situation

Some had departed but a lower percentage than other parts of the country others have trickled into Cirencester from the East Coast leaving 814 children, mothers, teachers and helpers. The Ministry had been told that saturation point had been reached but said 200 more children might be sent. He had approached those who had refused in the first place and found accommodation for 190. The Chairman said that they ought not to accept any more. They had protested to the Ministry without success. Col Elwes said "it would mean too great a strain on the local services such as sewerage and water". He foresaw epidemics.

Others pointed out that this was the case in many reception areas. It was agreed not to place an objection as this was not the time to obstruct any efforts of the Government.

The Fairford deputation were successful in getting the allocation of a light trailer pump and about 20 more stirrup pumps for the Rural Area in general this in addition to the peace-time two man pump. The Council set aside funds for uniforms and equipping two men for the pump and recruiting and training six volunteers for Fairford. When the trailer pump is delivered it might be desirable to move the existing emergency two-man manual to Sapperton where there is no fire fighting appliance.

Air Raid Warnings by telephone had proved too complicated for outside districts and there was no other system. Captain Swanwick said people were better off without warnings seeing that bombs were dropped so indiscriminately and the subject itself was "dropped".

ARP Control Relief Team Wanted

A second relief team is needed for Cirencester ARP Control Room and Report Centre. There are two teams at present 1 and 2 taking alternate daily duties. They consist of 4 or 5 ladies and 4 or 5 men with representatives of Police and Fire Services and work under a Sub-controller and a Supervisor. The ladies act as telephonists, out message clerks and in one case charting clerk. The men act as plotting officers filing clerks etc. The duties are such as anyone of intelligence may quickly perform. The surrounding are as save as ingenuity can devise.

The Control Room is the nerve centre of ARP where every incident of a raid in Cirencester and Rural District is reported and from where appropriate action is directed. Everything

taking place can be both heard and seen, every incident plotted on large scale wall sized maps showing practically every house and building in the area. The position of every ARP service is known at any moment. Those interested kindly send name and address to the Editor Wilts and Glos. Standard.

BRCS/POW

Through the BRCS 1d a week scheme you can now actually adopt a prisoner and have the money earmarked for a specific prisoner.

Food Production

Gloucestershire's plan of Home Food Production Clubs is to be adopted by the Government. There are already 37 in Gloucestershire. Vegetables particularly need to be grown. In the August garden and allotment competition the winners in Cirencester were 1st Mr B L Gassman 76 Dyer Street 2nd Mr F W Bishop 109 Victoria Road 3rd Mr H A Moss 34 Bowly Road.

Fund Raising / Spitfire Fund

Polly Sets the Ball Rolling

Mrs R Lock writes " Within an hour of reading your paper of the £5,000 wanted for the Ciceter's Spitfire my parrot had collected her first coin towards it. She stands on the counter in our baker's shop in Watermoor Road and says "Thank you" for each coin put in the box. Polly is doing her bit and we hope to add a nice sum towards the spitfire". A list of subscribers follow. Mr A T Cripps with the aid of Bobbie Tillett a small evacuee billeted with him collected 10/- from sightseers to the scene of a recent raid. Also No2 Team of Cirencester ARP will put a penny in each time they are called out. Total to date £65-1s

What do I do about my Gas Mask

I never forget that one day it may save my life (and no one can say when that day may come)

So I treat it with care. I give it a good look over from time to time to make sure that the eye

panel is not split or the rubber torn or punctured. And for 15 minutes every week I wear it, to

make certain that it fits properly and to get used to breathing and moving about with it on. I am careful that the carrier in which I keep it is strong enough to protect it from knocks and I take it with me wherever I go.

Cut this out and keep it - Issued by the Ministry of Information. Space presented by the National Brewers Society.

Food Production / Pig Club

Cirencester Urban Pig Club

The above, the first in Gloucestershire to operate a communal scheme commences its work next week. The communal scheme will have its piggery in Chesterton Lane in the buildings which have been used as kennels for the Royal Agricultural College beagles. The field has been let by Mr Harry Smith at a moderate rent. The Governors have allowed free use of the buildings subject to their return at the end of the club's life in present condition. The Committee is Mrs W A Chester Master, Oxford House; Mr A S Barnard, Thornton, Whiteway; Mr J Mustoe 22 Albion Street; Mr H Lusty 125 Watermoor Road; Mr F Ponting 8 Siddington Road; Mr W Andrews 83 Watermoor Road; Mr W D Mclay Chairman and Mr J H Wilkinson Hon Sec.

Mr Lusty who has a life long knowledge of pig keeping is to undertake care and oversight. It is intended to keep 40 pigs with a turn over of 80 per annum. It is affiliated with the Small Pig Keepers Council. Being the first in Gloucestershire it is being watched by Lord Bledisloe and others interested in County food production.

Collection and sterilisation of food waste commences on Monday next by the UDC staff at the same time as household refuse collection. Householders are asked to place waste in an old bucket or tin which will be emptied into a special bin on the refuse vehicle.

Waste saved should include bread crusts, stale bread and all material made from flour, waste from vegetables and salads, potatoes and apple peelings, scraps of meat and fish and table leavings generally. It should be kept as dry as possible. Skins of bananas, oranges, lemons, or grapefruit, tea leaves or coffee grounds, salt, soda, soap or bone should not be included. The minimum share is 5/- maximum £2 with interest not exceeding 5%.

Enemy Action / Casualties

Sleeper Killed by Bomb – Cottage Demolished in South West Village
(from other sources this was Ashton Keynes)

A bomb from an enemy plane which hovered over a South West village in the early hours of Monday morning caused the death of Mr Sam Telling and demolished a cottage property. ARPP wardens, the police and other workers extricated the victim from the wrecked cottage but he had died from a broken neck. Mr Telling was retired and had formerly been a groom and was living alone in the house but it is understood that a daughter whose husband has joined up was coming the same day with her two small children to reside with Mr Telling. In one damaged house a blind pensioner was buried under the debris but unhurt. Little of Mr Telling's cottage remains standing save part of an inner wall, bricks and stones being scattered for many yards. Roofs were stripped from nearby cottages and damage done to the roofs of other houses in the vicinity. A second bomb fell in a field of kale near the cottage. "There was no military objective within many miles" (South Cerney?)

The funeral of Mr Telling took place on Thursday afternoon in the village churchyard. It was conducted by the Vicar who gave a short appropriate address. In addition to the family mourners there were representatives of the Civil Defence Services. Floral tributes were sent by relatives and friends there also being a floral tribute from members of the Brotherhood (Bruderhof)

ARP / Air Raid Warnings

Colonel Pardoe describes the current Air Raid warning system.

When enemy aircraft approach this country their movements are reported by trained observers throughout the country. Reports are sent straight to HQ of Fighter Command where they are plotted on a central chart. With the information at hand Fighter Command judge the course and targets they decide to warn.

- (1) Yellow warning which is confidential to all over whom the raiders will probably pass. This is transmitted then to all who have to be on the alert. Often these come nought as the raiders are beaten off or have changed course.
- (2) The purple message is issued at night to areas in the course of the raiders. All exposed lights on docks and transport undertakings must be put out. The police have the right to direct motorists to turn off headlights.
- (3) The red message is a public warning when sirens are sounded so that the public can take shelter. It is only sent to areas where it is thought an attack will develop.

There are also white messages cancelling all previous ones, in the case of (3) the raiders passed signal may be given.

Fighter Command must use its discretion. The factories must continue to work so there will be risk. Local systems would not work Fighter Command have all the information. We are therefore bound to have some bombs without warnings and some warnings without bombs.

ARP / Air Raids

What do I do if raids are frequent in my district?

I don't go out of doors unless I must. I go to bed early and if possible put my bed on the ground floor. I see that I have sand (or earth) in case of fire. I procure a stirrup pump. I know that it is my duty to take precautions, even though so far I have been more fortunate than others in escaping danger.

Home Guard

The following message from Sir Anthony Eden has been sent to all members of the Home Guard in Britain :

“ On the anniversary of the outbreak of war I wish to offer my warmest congratulations to all members of the Home Guard upon the rapid growth and progress of the force. The duties of the Home guard are many and diverse. But however exacting these duties have been and wherever they have been performed the same spirit of devotion and loyalty has been everywhere manifest. Already during the intensive operations of the past weeks upon the Home Front the Home guard has had opportunities to prove its capacity for service. The Country has good reason to be grateful to men who are devoting all the time that they can to give essential service”.

The message has been received with quiet but undisguised satisfaction by the Home Guard all over the Country. Since its inception whilst there has been little change in its organisation the Home Guard duties and responsibilities have increased out of all knowledge and include not only the maintenance of observation posts and the potential defence of every square yard of ground under their supervision but also traffic control and the guarding of vulnerable points. Training has progressed with the more rapid supply of equipment and arms, and Sunday classes are now a prominent feature of the Home Guard routine. These are organised and constructed by regular officers and NCOs who have volunteered their services to help in a good cause and the five hour curriculum comprises the care of arms, simple drill, movements in extended order, musketry, duties of sentries, handling and operating of bombs, grenades and mines and message and simple map reading.

Rationing

Butter ration reduced to 2ozs per head. The allowance for catering establishments is A twelfth of an ounce per person per meal served out of the total butter and margarine allowance of ¼ oz.

The meat ration from 30th September will increase from 1/10d per head per week to 2/-.

Home Guard

Home Guard Parade in Cirencester (includes 3 photos)

Earl Bathurst inspecting the ranks. Earl Bathurst taking the salute both photos taken in the Park.

On the return : Home Guard officers : Lt Col B W Robinson MC and Maj J Gordon Dugdale MVO. DSO. MC. Councillors A J Matthews, W G Tovey Chairman CUDC E Newcombe, Brig Gen E R Hankey CB. DSO. S Boulton and H J Smith standing on the steps of the Barracks.

Report :

Save in twos and threes as they went to or left spells of duty on guard or patrol Cirencester has seen nothing of its contribution to the personnel of the Home Guard until last Sunday when Cirencester Company held its first Church Parade. Not many we think were prepared to see a parade of the size and smartness of that presented on Sunday morning when prior to their departure for the Parish Church the Company was inspected by Colonel Earl Bathurst CMG. who took the salute as they marched off.

The Chedworth Silver Band under Bandmaster J Lawrence headed the parade which was piloted by PS Howkins Cirencester, PC Morgan North Cerney and PC Waldron South Cerney or ex servicemen.

Sunday was the day of Harvest Festival at the Parish Church and the festival naturally provided the main theme of the address given by the Vicar Cannon L Westmacott who however also made appreciative references to the work of the HM Forces and no less to the work of the Home Guard and ARP Services and others engaged in the war effort.

After the service the parade returned to the place of assembly giving a salute to the Chairman and members of the Council and Home Guard officers already gathered there. Before the parade was dismissed. Mr Wilson G Tovey Chairman of the CUDC briefly addressed the men. Mr Tovey said I would like to thank you very much on behalf of the UDC for inviting us to attend your parade this morning and also for the compliment you have just paid us.

You of the ARP associated with the Fire Fighting Services are members of organisations which are the admiration of the civilised world, and, should you through invasion or bombardment be called upon we feel sure that you are trained and ready for any emergency. And thanks to your devotion to duty in the past months, I think it is safe to say that the Home Guard has beaten all records in the world's history. At your country's call you voluntarily enlisted and in a few weeks over 1½ million men were detailed for duty. In this the Ciceter Company played a splendid part and you must have been very gratified to receive the congratulations of the Minister of War a few days ago. You must feel specially proud that you have incurred the wrath and the resentment of the two dictators that we are fighting and if the invasion or other necessities require your attention we know that you can be relied upon to play a noble part. Gentlemen on behalf of the Council, I wish you all the very best of luck and God speed.

Our Bazaar

Passers by in Chesterton Lane last Saturday were surprised – and not a little amused – to find a “Bazaar” set out on the pavement somewhere between Somerford Road and the railway bridge (note censorship). Here was a chance to buy all sorts of goods edible and otherwise and on a separate stall a wide assortment of flowers, vegetables and fruit or to have a lucky dip. Not all the passers –by were surprised however for some had been advised by notices slipped through their letter box that the Bazaar would be held. Those who stopped to buy or try their luck in the dip were “invited to place their money in a box labelled Ciceter Spitfire Fund. The stall holders were Deidre May aged 11 and her two neighbours Pat and Penny Mate, aged 8 and 7. The idea was their own and first took shape by the investment of all the pocket money they could raise in goods for the lucky dip. Afterwards their toy cupboards were ransacked for books and toys and household stores were raided for other goods. Then a personal canvass secured goods in plenty for the produce stall. Finally notices were written and personally distributed. Youthful optimism prevailed against adult scepticism and raised £2-3s.

Evacuation / Communal Feeding and Accommodation

Care of Evacuees – Cirencester Communal Kitchen and Hostel

Valuable work of the WVS (not verbatim)

We announced a fortnight ago that the WVS would open a communal kitchen for adult evacuees now in the town. This opened on Thursday last week the Church Hall being requisitioned for the purpose and is open every day including Sundays. Here a hot meat lunch with vegetables and with a pudding and cup of tea to follow can be obtained at 9d for adults

6d for children. So far the average attendance for the midday meal has been 50 per day and so far as can be gathered everyone has been exceedingly pleased with the meal provided. Everything including the cooking is done voluntarily.

Next Monday it is hoped to open a social centre where mothers and children can spend their afternoons. Also at the Church Hall staffed by Cirencester WI who are assisted by the WVS. for this garden chairs and other comfortable seating accommodation is sought. It is hoped to run a buffet at this centre with tea and buns if it is shown to be required.

The latest venture is the provision of Hostel accommodation at Chesterfield School. This opened last Saturday and has proved very convenient. It provides 48hr accommodation for evacuees arriving late in the day pending permanent billets. The WVS would be pleased to receive gifts of fruit, vegetables, rabbits and so forth for the communal kitchen, such gifts are being a great help.

Shopping for the Whole Family

(Illustration of a basket containing bread, vegetables, a Spitfire and a cannon barrel)

Once the family budget concerned just you and your family – shoes for the children, a holiday by the sea, a dress for the wife, food for you all. But now your family budget has to help buy guns, tanks and planes to defend a bigger family. The family of Britain. We are all pooling our money to defend our British family, here and overseas, as a whole. Every penny every shilling every pound you save and lend to the Nation is your contribution to the defence of your home and the homes of all. And every extra sacrifice you can make brings nearer the day when we can pass from defence to attack from attack to victory. Spend as little as you can. Save as much as you can. Be a stern and wise Chancellor of the family Exchequer. Save regularly week by week. Go to the Post Office or your bank and put your money into Defence Bonds, Savings Certificates or National War Bonds or deposit your savings in the Post Office or Trustees Savings Bank. Join a savings group and make others join with you.

Agriculture / Food Waste

Practical Farming by A Lancaster Smith

The article includes castigation of the Military Authorities for throwing away loaves and half loaves into camp swill when a householder is liable to a fine for giving his dog a crust. Such bread is often sold by the truck-load to dealers. Is there one law for civilians in this matter and one for the military? “It makes me tired to hear these urgent appeals over the air to economise on bread, because one slice of bread wasted a day means umpteen ship’s cargoes

annually, that have to be brought here by the valiant efforts of our merchant seamen, if at the same time evidence is available of flagrant waste.”

Welfare / BRCS

A report of the Red Cross's work in Gloucestershire includes the response to the request for large houses for Convalescent Homes. So far four have been adapted and are ready or nearly ready with 221 beds. 300 beds are still required in the County. No patients have yet arrived.

ARP

What do I do if my home is made uninhabitable by a bomb?

I ask a warden or a Policemen to direct me to the allotted Rest Centre. If I have relatives or friends to whom I can go I apply to the Public Assistance Authority for a travel voucher. If my home is completely destroyed, I go to the Town Hall or consult the Local Authority to see if and when temporary repairs can be done. If I have become separated from my family or my children and cannot find them, I ask for help at the nearest Citizens Advice Bureau or Police Station. (The Rest Centre or the Police will supply all the addresses)

POW Welfare / Red Cross

The service for personal parcels for POWs suspended in July has now been restored. One every 3 months will now be allowed through the Red Cross.

ARP/ Rationing/ Restrictions

Restrictions on the purchase of certain items have been lifted to local authorities to supply shelters and those who are bombed out. They include : gloves, knitwear and hosiery of all kinds, floor covering, pottery and glass and wicker furniture. Open license has already been

given for local authorities to buy mattresses. The supply of infants clothes was released from October 1st by the Woven Textile Order. The open license now issued permits the supply to local authorities of glass replacement fabric made from lace. All woven cotton and rayon supplied to local authorities was exempted by the Woven Textile Order.

Windows and Air Raids

E L bird of the Research and Experimental Department of Home Security gives tips on protecting glass during raids. Curtain net or cotton sheet stuck on is good but gluing is difficult when the windows are steamy.

Wire mesh (when you can get it) is good.

Leaded lights tend to bulge rather than break. Criss-cross sticky tape has a similar effect.

Open or loose windows stand blast better.

Shutters give good protection if tied across with strong elastic e.g. old innertube.

In quiet country places windows may be glazed quickly. In other places flexible glass substitute at 1/6d to 5/- a square yard may be used. The cheapest is cotton or linen painted with boiled linseed oil or varnish. You cannot see out but light comes in and no wind.

Military Welfare

Gilbert Frankau appeals for comforts on behalf of his old regiment the Royal Artillery.

ARP

What do I do – these evenings before going to bed?

I turn off the gas at the main. I leave some water in the bath. I also fill a bucket and leave it handy, together with a bucket of sand or fine earth. I may need, and have near me, my gas mask. If I can, I leave additional clothing with a friend, as a further precaution. I put a pair of out-door shoes and a warm coat by my bed in case of sudden emergency.

Cut this out and keep it - Issued by the Ministry of Information. Space presented by the National Brewers Society.

Finance

Any complaints about the new Purchase Tax (i.e. stock prior to October 21st with tax added) should be sent to the South West Price Regulation Committee Albion Chambers, Bristol.

Rationing / Invasion / Christmas

The Ministry of Food Advises housewives to store one week's extra food. This preparation for emergencies is not hoarding. The store should include; flour for one week's bread and a tin of baking powder, some whole wheat or other good hard biscuits, cereals, coffee and cocoa. If possible a little sugar and tea from the family ration should be put aside. Canned food, fish is especially useful, vegetables and best specimens of apples and pears store well. There will be little of pre war fruit and vegetables from abroad this Christmas so save some from the garden.

Christmas will be a time of "happy returns" Husbands sons and daughters will be on leave, prepare now for their welcome home meals. There are still some dried fruits available enough to make a limited number of Christmas puddings mincemeat and other festive fare.

Evacuation

Billeting - "Use All Powers"

The West Country in particular is affected by the important announcement about compulsory billeting powers and the use of empty houses for evacuees which has been made by the Minister of Health.

Mr Malcolm MacDonald has asked all local authorities to use the compulsory billeting powers without fear or favour when necessary and to make fullest use of empty houses. Overcrowding must be avoided. It had been reported to the Ministry that some small houses were billeted to the full extent while there were none in large houses. Billeting Officers should take any action necessary to secure fair distribution.

Widest use should be made of empty houses to reduce the maximum calls on householders and so that evacuee mothers can have their own "home". In larger houses where several families are accommodated together a paid social worker can take charge. Local authorities should watch adverts of empty properties and requisition any which are required.

Advert

National Savings

(advert taking up a lot of print space perhaps replacing censored material)

Your Money will be safe and always handy

Better be safe than sorry so don't keep by you more money than you actually need. It is not safe. Do not run the risk of loss or destruction by keeping it in your home. In these uncertain days you never know what might happen.

You may have to face sudden evacuation, your job may take you to another district, your house may be damaged in an air raid – all these things are happening NOW to people all over the country.

If your money is in the Post Office or trustees saving Bank it will be safe. You can then be sure of withdrawing your money wherever you are. Look after your bank book and carry it with you wherever you go.

Put your money in the Post Office savings bank or A trustees Saving Bank.

Entertainment / Dance / Military Welfare

Entertainment / Requisitions

Military to Free many Village Halls

The War Office have requested that the Military Quartering Officials in the South West refrain where possible this Winter from using village halls. This will allow them to be used for social functions and entertainment, Ministry of Information films and lectures. All helping to keep up village morale amongst residents, evacuees and to entertain the troops. Where necessary the military use should be restricted to daytime for dining and lecture rooms. Applications for films where audiences of 50 are guaranteed in six South West Counties to the Film Officer Ministry of Information 15 Belgrave Road Bristol.

National Savings

A Way to happiness

Sir Robert Kindersley appealing for village National Savings Group collectors points out advantages of the social side of the village National Savings Group personal contacts etc.

ARP/ Air Raid Shelter

The Minister of Home Security Mr Herbert Morrison announces that the total cost of future air raid shelters of any variety will be met by the Government. Local Authorities will now be able to act quickly on the advice of the Ministry or Regional Commissioners. But appeals for economy are to be observed.

Fund Raising / Spitfire Fund

Orders for the Week

Cotswold Sea Cadets

Cotswold sea cadets November 2nd 7pm – Rifle instruction 8pm. P.T. and Gym
Wednesday 7pm Seamanship and Navigation – Uniforms will be worn.

WVS / Evacuee Welfare / Military Welfare

The Cirencester WVS Clothing Depot will change address next Friday from Querns Lane House to the Old Grammar School, Park Street. It will open during the Winter months Tuesday and Friday 2pm to 4.30pm and Wednesday 10.30pm to 12.30pm. In this better and more central accommodation it will be joined by the Rural District Depot run at Ampney Park.

Interviewed by the Standard reporter Mrs Vernon spoke for Mrs Chester-Master “We’re carrying on” she agreed. “We simply must – but not exactly as before. The work is greater – much greater – intensified by the flood of homeless evacuees who have come to us. Their homes bombed to dust – their possessions too – often with little or nothing more than what they stand upright in – then need for clothes is great. We want clothes for them badly and this need is growing greater every day. We can’t get too much.”

Questioned as to other activities – and particularly other needs. Mrs Vernon said promptly : “money and knitters – those two are the great needs.”

I gather that money is needed to pay for a large quantity of wool to knit comforts for fighting men. There is an appreciable advantage in buying in lots of 100lbs.

Comforts are definitely needed and have been promised. Therefore though there wasn't a cent in the kitty for this organisation has no funds – the WVS bought 100 lbs of wool. And there's the bill to be met. Knitters to convert this 100lbs and further 100lbs will be welcomed. Their work will be appreciated. "We have a large order for socks for the Royal Gloucestershire Hussars.

Women's Land Army [WLA]

Land Work by Girls Rally at Gloucester

Mrs W S Morrison presided at a rally in Gloucester. She paid tribute to Mrs Bathurst the organising secretary. Mrs Bathurst outlined the scheme.

Since June 1939 they had trained 109 volunteers. Training had also been carried out on Gloucestershire farms when 111 had been trained. Gloucestershire has the 4th largest Land Army in the Country. There are 314 girls. 252 on farms, 27 in market gardening and 35 employed by the Forestry Commission.

Mr Boutflour said that milking cows was not for men in wartime. Women could do this while men ploughed extra acres. Germany kept 90 people from 100 acres. This country with a better climate and soil only 35 per 100 acres. This is due to shortage of manpower. The ploughing of a further 45,000 acres would take all men available. The essential work in the dairy must be done by the WLA

Dig for Victory

A report by the Chairman thanked Major Dugdale for the use of the Abbey Grounds for the New Zealand demonstration of wood cutting and Rugby also the NZ CO Col Elliot for providing the prizes and refreshments for the men. An auction of the timber afterwards raised £18 (auctioneer Mr Charles Allen) gate receipts £39 therefore provided £57 to the Spitfire Fund. Householders have been distributed with envelopes to be collected by women volunteers. It is hoped to get the figure of £1,000 to be sent to the Ministry of Production as Cirencester's contribution to a Spitfire. Mr Berkeley gave a report on the construction of domestic air raid shelter provision. (no detail given).

The Salvage Committee Report

Monies received from salvage during the month. – Paper £21 – 19s , bones £2 – 11s – 9d. kitchen waste £31 – 6s

There had been problems with paper due to transport but a lorry had just collected a load.

The Pig scheme is now under way 15tons 14cwt of kitchen waste had been sold. The average collection was 22 bins per day. They had obtained a small sterilizer but needed to use 2 coppers as well. Sterilized food was more popular than boiled. A large copper was promised. Mr Winstone jocularly advised his colleagues to snap up some of the shares as it looked like being a profitable business.

The Council decided not to entertain minimum street lighting as it was not satisfactory but to go for total Black Out as last Winter.

Mr Matthews speaking to urge on the Dig for Victory campaign said that he hoped next year every garden on Chesterton housing estate would be eligible for one of the prizes offered by the Horticultural Committee. The Council had provided houses for certain people who were earning good money and those people should dig and plant their garden to the satisfaction of

the Council. Mr Berkeley and Mr Boulton hoped the Council would strictly carry out the ruling that it would terminate the agreement of any tenant who did not properly cultivate the garden attached to their Council house.

This fund will close on Saturday November 2nd. Last two days raised £23 – 4s –3d. It is hoped to raise £1,000 to buy a fifth share in an aircraft. Contributions may be paid at principal Shops and Licensed Houses in the town and facilities are being provided for receiving subscriptions in the villages. Subscriptions may also be paid at either of the Cirencester Banks, Lloyds, Midland or Barclays – or to the Chairman of Cirencester UDC Mr W G Tovey, Market Place Cirencester.

Dig for Victory/ Horticultural Society

The Ciceter Horticultural Society was inaugurated at the Municipal Offices on Wednesday October 23rd with Councillor A J Matthews JP presiding. The Committee is charged with the provision of allotments as and when required and with encouraging and fostering by propaganda and other means an increase in garden food crops. The Committee appointed was Chairman A J Matthews JP , Councillor W G Tovey JP, W Adams, S D French and S J Smith with Messrs E A Jefferies, A Derry and F Wood (Chairman of the Cirencester Food Production Committee) Joint secretaries Messrs Wilkinson and R E Arnold, and Messrs R E Arnold and A Derry appointed technical advisors.

The broad aim is to produce food which otherwise would be imported, particularly 250,000 tons of vegetables from the continent. They would be able to provide practical and technical advice and buy in bulk to supply gardeners with cheaper tools, seeds etc. They are also able to call on educational, advisory and research organisations set up by the Ministry of Agriculture and upon a panel of lecturers and demonstrators from the Royal Horticultural Society.

Crime / Military Casualties

Ernest Henry Reilley, 41, Aircraft fitter of 5 Queen Street was sentenced to 20 months hard labour for the manslaughter of William Annis a soldier from Pershore on August 14th at South Cerney (full details of case at Gloucester Assizes given). When the accused smashed broken glass from the car the license was left stuck to it! Frederick Waite, aircraft fitter, 21 of Queen Street was sentenced to 3 months in prison for incorrectly telling the Police that his car which was involved in the incident, had been stolen.

Cirencester British Legion / Military Welfare

Mr Wilkie the Hon Sec of the Entertainments Committee reported that 58 parcels had been sent to members and their sons serving in HM Forces. 58 letters of thanks had been received. It was proposed to present an inscribed silver cigarette case to Mr AV May who had been Hon Sec for some years and now had rejoined the forces. Mr E Oldcorn is to succeed him.

Military Welfare / Entertainment / Dances / NZ Troops

Dances for the troops organised by Mr Runacres

The attendance far exceeded expectations with over 600. The doors had to be closed half way through. The attendance was augmented by many New Zealand servicemen visiting a competition, as competitors, or supporters of the axemen's competition that afternoon.

Among these were Brigadier Harget DSO MC Senior Officer of the New Zealand Expeditionary Force in Great Britain, Lieut. Waite DSO New Zealand Forces Welfare Officer, Lt Col J G Elliott Officer Commanding the New Zealand Forestry Group and Staff Cpts Collier and Geer of the Forestry Group.

Free use of the Corn Hall was given by the War Office through Lt Col F Fisher SAQC. The Hall was gaily decorated, the music provided by Alec Mattock and his Band. Prizes - spot dances given by Messrs G M Murray and W H Williams of the Texas Oil Company, by the proprietors of "Old Angus" whisky and Mr Bowen manager of the Picture House who also gave free screen publicity. (large list of helpers included in original report) £2 was made in a copper collection for the Spitfire Fund.

Entertainment / Sport / NZ Troops

(Long Report plus 2 photographs)

1st photo (standing group) shows Reg Grundy of Auckland twice World Champion who won all three competitions.

2nd photo Tiny Coleman of Australia who was second in foreground and Reg Grundy at the 4th log.

Main points of the Report

Over 800 attended despite it being a cold dull day in the Abbey Grounds. The competitors were mainly from the Forestry Group of the New Zealand Engineers plus a few Australians. Official Clerk of the Course was Cpt Burges, Handicapper Major G A Gammon, Judges Capt A M Collier, Sgt McKenzie and Spr Fenton, Announcer and Starter Sgt Lockett, Time Keepers Cpl Chaplin and Spr Henson, Log Stewards Cpl Graves, Spr Emerson, Spr Holloway and Spr Whitehead.

The events were watched with great interest and not a little excitement. Reg Grundy entered 5 of the 6 events and won 4 of them including 3 Army Championships. The logs used were

poplar – very fresh and damp provided by Earl Bathurst CMG. The competitors drew for their logs before each event.

Results

12” Standing Army Championship - 1st Reg Grundy, 2nd R Coleman (Australia),

3rd E Bennett - Grundy’s time 26 seconds

12” Underhand Army Championship - 1st Reg Grundy, 2nd E Bennett,

3rd T Jackson - Grundy’s time 27 seconds

14” Standing Army Championship - 1st Reg Grundy, 2nd R Coleman – Reg Grundy got through the log in 43 seconds. 3 others did not finish.

14” Underhand Chop 1st R Coleman, 2nd T Jackson, 3rd E Bennett – Coleman’s time 48 seconds.

Coleman went off at a great rate to keep up with Grundy who seemed handicapped by a sticking axe. It was close but Grundy failed to give the 2 strokes to finish the chop. Of the 8 competitors 3 were Australian.

14” Standing Handicap Chop – 1st Reg Grundy (scratch 16 seconds behind) 2nd E Bennett (6 seconds) 3rd L Rogers (6 seconds) time 47 seconds.

14” Underhand Handicap Chop 1st E Bennett (4seconds behind) 2nd Sgt Chandler (10 seconds) 3rd W Collinson (6 seconds) time 47 seconds.

There was an exhibition of sawing by E Bennett and W Collinson cutting 14” in 11 seconds.

During the interval a Rugby match was played between 2 New Zealand teams.

Mr Tovey gave words of thanks especially to Brigadier Harget from the New Zealand Provisional Headquarters. £18 was raised from an auction and £57 added to the Spitfire Fund.

Royal Artillery Comforts

Following Gilbert Frakau’s excellent letter readers may like to know that 4,000 woollen comforts have been made by knitters in Gloucestershire during last year to the Royal Artillery Comforts Fund. Another 100lbs of wool has just been sent to be made up.

Jessie W Gibbon – Ampney Crucis House, Cirencester.

Censorship

Why Not More Air Raid News

The Ministry's explanation is that the restrictions are mainly to limit enemy information gleaned.

CRDC / Rationing / Evacuees / Black Market / ARP

CRDC Food Control Committee report (includes)

J A Hall Food Executive Officer's report - 1,313 people have come to the district, evacuees etc. since August and the necessary exchange of reference leaves has been completed.

6,565 counterfoils in respect of the new registration had been received. 14 new licences to retailers had been issued during the last two months. This was due mainly to the Enforcement Officer "rounding up" persons in certain parishes selling such things as bread, cheese and biscuits etc at pubs and others retailing milk without a licence. 9 new caterers licences had been issued. Applications for sugar for bee keeping had been received and 79 permits issued for 453 colonies i.e. 1 ton 19cwt 7lbs of sugar.

To protect against damage by enemy air raid large numbers of documents, registers etc. are being copied to be kept with a neighbouring food office.

742 permits in connection with the Milk Scheme have been issued. The number of mothers and children having milk in the Rural Area are 786. The WVS is to be asked to encourage others to apply.

Broadcasting / Security

There is poor reception in the West of BBC Broadcasts particularly at 9 o'clock news. This is due to the system of confusion employed to prevent the enemy using the signals as a navigation aid.

Crime / Black Out

Cirencester Petty Sessions

Frederick McDougal was fined 5/- plus 3/- costs for having no front light fitted to his bicycle at 8.45pm with lighting up time being 7.37pm. SC Clack reporting officer.

Black Out Offence

Stanley Harry White was fined £1 for permitting a light at his house in Chesterton Lane. He was fined despite the fact that he was on Home Guard duty all night and the room in question was occupied by evacuees. The Bench said that the householder had to take responsibility.

Leslie William Arkell was fined £5 for allowing a bonfire to flare at night at Grange Farm Stratton at 10pm on October 8th. The blaze was in Kelvin left from threshing. The Fire Brigade was called and pumped water 200-250yds from the pond using the trailer pump.

Operated by Captain Fletcher and two men. PC Holtham of Daglingworth reporting officer.

James Alfred Rich a woodcutter was fined £2 plus 6/- costs for having unauthorised headlights in Coates at 8.55pm on October 7th. SC Tugwell of Sapperton reporting officer.

Military Welfare

An appeal for the Lord Lieutenant's Fund gives statistic for the last year including 40,000 woollen articles etc. given to units in the County Welfare Area and the Royal Navy.

Institutes and Guilds

Culture / Food Production

At Ampney Crucis WI Pte Vodak attached to the Amps gave a talk on life in pre war Vienna.

At Fairford WI Hay Box cooking was demonstrated by Mrs W R Gantlett.

At Kemble WI 1,000lbs of jam and jellies have been produced.

ARP / Children

Babies in Raids

Natural feeding is a great advantage. Vacuum flasks will help to solve problems of bottle feeding. Keep a tin of full cream dried milk handy as the milkman cannot always be punctual. Use the modern type of bottle and have water handy in the shelter. It is easier in an Anderson than a public shelter. A basket, box or drawer warmly lined will not only do for baby to sleep but to hold a supply of clean nappies, flask etc. For toddlers a doll or book should be included; and milk, a few biscuits, barley sugar boiled sweets, an apple or orange will be a comfort if sleep is broken. Ear plugs are a great help to older children. The child must be kept warm but not over wrapped to be uncomfortable and sweating.

Entertainment / Military Welfare

The Ashton Keynes Concert in the Village Hall was packed with local soldiers and civilians. The entertainment was by RAF members. With two pianos on stage and full equipment the famous "Cocernut Band" of Grove House (maybe misprint for Cove House) gave the audience a rare treat. Proceeds of the concert went to help finance the local canteen.

9/11/40

Dig for Victory / Allotments

Cirencester Horticultural Committee

Dig for Victory

Your allotment or back garden will form part of the Bulge in the enemy lines a Bulge that will break and through which will flow the torrent of Victory and Freedom. Half a million allotments are needed in Britain. 60 % of imported food is a doubtful policy in peacetime it is fatal in wartime. Every man and woman who can wield a spade and hoe has a part to play.

Ciceter do your part. Go to it, and emulate the example set by Bristol 1 allotment to 10 houses there had been 3,300 extra allotments started since the outbreak of the war.

Make your peacetime hobby a war time duty. Persuade your neighbours and friends to turn to gardening, at home or on an allotment.

Gardening is your sphere of influence.

You who have gardens and allotments plan now for next seasons production and so make every yard of soil give its full yield. Let frost and wind help you to prepare a record season.

Dig Now and Dig Deeply, do not wait until Spring to make a start. There is no Winter of Discontent in a garden.

German thoroughness will grow every ounce of food possible. Beat them to it. The German cannot garden like you can if you will but bend your will but bend your will and your back to the vital task. Gardening is one of the most satisfying of pleasures. Try it and do your bit – and will be a big bit – towards defeating Hitler and his gangsters. Every potato, every carrot, indeed every vegetable is charged with defeat and death to the enemy. Let us Help You to Grow them. Call now at the Municipal Offices. We will provide you with an allotment. To those who already posses a garden or allotment we will give advice and encouragement.

Technical advisers R E Arnold and A Derry – Joint Hon Secs. J H Wilkinson and R E Arnold.

Letters to the Editor

Pest Control

The Rat Campaign

As a rule "rat Week" is held in the first week of November but on the present occasion the need for active measures against these food destroyers vermin is so urgent that the Ministry of Agriculture is initiating a sustained Campaign which will, it hopes, be carried on through the coming Autumn and early Winter.

May I therefore appeal to everyone who will be killing rats during the period to do the work humanely; some people are apt to be callous when destroying vermin.

Full particulars of effective and humane rat traps which can be supplied at cost price may be obtained from the RSPCA 105 Jermyn Street London SW1.

Fergus Mac Cunn Captain Chief Sec. RSPCA

He also writes advising people not to let cats stray after dusk and urges people to take precautions well before Black Out.

Military Welfare

Col. P G J Gueterbock County Welfare Officer for Gloucester and Bristol and Chairman of Gloucestershire TA and AF Fund outlines the working of the Lord Lieutenant's Fund.

Drink / Morale

Enemy Action

A fighter pilot "became a local hero" when he crashed his damaged Hurricane into an enemy Dornier 17 Bomber. The Hurricane lost its port wing and most of its engine. He bailed out and saw three jump from the enemy aircraft before it exploded. A second Dornier spun down minus a wing and crashed about two miles from the ploughed field where the Hurricane pilot landed. (as yet no local record of this event)

Home Guard / Invasion

Changes in Home Guard organisation

Commissions for all approved Commanders and suitable compliment of Warrant Officers and NCOs. The Commissions will allow Commanders to take command of all troops in a given locality should emergencies arise.

The Inspector General or Staff of the Commander in Chief to be replaced by the Director General of the Home Guard. Compensation to be paid for loss of wages due to Home Guard whole time emergency service. The present £1 per head is not satisfactory. There will be

rifles, automatic rifles and machine guns and grenades very shortly for 1 million men. Battle dress is to be issued and denims withdrawn. Conditions of service remain the same.

16/11/40

Dig for Victory

Cirencester Horticultural Society – Have you decided?

The sands of time are running out. Autumn will soon be fading into Winter; procure an allotment and prepare now for the Spring planting. Do the first job first and dig and feed the soil now and make a bumper crop in 1941. Apathy is largely responsible for the world conflict. Remove it from your life and provide the answer to the U-Boat menace. You owe it as a duty to the men who are defending our land, who will soon be taking the fight into enemy country. If they know that those they have left “way back home” are well fed they are relieved of at least one great anxiety.

Don't Hesitate

There is NOT time.

Hitler and his Italian jackal have struck mercilessly, suddenly, they will strike again even though the allied forces are slowly but surely drawing their claws and teeth. Put your back into it and help grow food, that food that may well mean – will mean- Victory for us, death to Dictators.

Don't Delay

Come to us at the Municipal Offices now. We will help you in the vital matter, a question maybe of life and death, make no mistake, it is your job - it will be your victory or your funeral.

Delay is Too often Fatal

The moving finger writes, and having writ, moves on; not all the piety nor wit shall lure it back to cancel half a line, nor all thy tears wash out a word of it.

You who have allotments and gardens bring your problems, tell us your difficulties. We are here to help you, we must help you in a cause so vital.

ARP / Shelters

What do I do to keep my Anderson shelter healthy in Winter.

I keep the earth covering over the shelter firm by beating it with a spade. I slope the floor towards the entrance where I dig a hole for drainage. I cover the floor with bricks and put a layer of lino on them. I clean the shelter completely once a week and spray thoroughly with an antiseptic. I keep the shelter as dry as I can and always take away rugs and blankets in daytime so that they shall not get damp. And I remove all trace of foodstuffs.

Cut this out and keep it - Issued by the Ministry of Information. Space presented by the National Brewers Society.

Crime / RSPCA /Food Supplies

Rabbit trappers Reginald A Gough of South Cerney, Horace Gough of 115 Cheltenham Road and Sidney Evans of Ampney Crucis were fined 5/- plus the costs of the RSPCA when the latter brought a case against them at Gloucester Police Court for using spring traps above ground. The defendants were employed as a firm to cut down the number of rabbits on an estate at Highnam. Their Counsel and a gamekeeper from the estate they were working under the instructions of the WAEC. The latter made strong representations on their behalf. The Bench decided on a small fine. The WAEC have made strong representations to the Ministry of Agriculture urging the suspension of this section on spring traps in the interest of food production. The RSPCA went to Beecham Wood and found 14 traps on the ground, 6 with rabbits in with broken limbs and 1 with a cat. They could hear the rabbits screaming. There were few burrows and most rabbits lived in the undergrowth.

Cotswold Bruderhof / Refugees

The Cotswold Bruderhof – part going to South America

It is understood that the Cotswold Bruderhof or part of it is moving in the near future from Ashton Keynes and that members are to make a new home in Paraguay in South America. An announcement to this effect is made in “Peace News”. It is stated that about 50 of the present community will remain behind and that there is a possibility that a public utility undertaking will be formed to carry on the management. There has been no definite decision thus far but the idea behind the suggestion is that such an undertaking would provide an outlet for those who because of their pacifist views now find themselves forced to give up their ordinary occupations to take up other work of national importance, such as agriculture.

To a press representative a member of the commune at Ashton Keynes said, “We are still carrying on. There are certain plans about which we do not wish to have any publicity at the moment.” The Oaksey part of the Bruderhof estate was recently disposed of by auction.

Agriculture / Food Supplies

Gloucestershire Farmers Union complains of free milk being given to nursing mothers or children under five regardless of income. It was a scandal as the rich could obviously afford it. It reports that the Government is attempting to encourage flax growing 2,000 of the 40,000 national acres to be produced in Gloucestershire, Herefordshire and Worcestershire. A factory would be set up. There is also comment on the destruction of rabbits being hampered by the law on above ground trap. The recent case at Gloucester Police Station is referred to.

Blood Sports

Dig for Victory

Cirencester Horticultural Society – Have you decided?

Wake up Cirencester

It is the plain duty of every able bodied man remaining at home to grow food and yet more food to contribute as much as possible to the Nations Larder. If you fail to accept this duty the war may be prolonged, vegetables may be very scarce and expensive, non existent perhaps to many people. Do not scrounge from your neighbour his surplus will sustain the hospitals, the infirm and aged, the women and children, the bereaved and bombed out strangers in our midst.

Wake Up

Apply for an Allotment Now

Answer the terrible challenge of London, Coventry, of the many bombed cities and towns live up to the glorious action of the Jervis Bay. You must now and here realise the life and death importance of home grown food. Rain bombs on Hitler for everyone received a well stocked allotment or garden is a deadly weapon. The evil men of Germany and Italy will perish; do your bit here at home and hasten the end. Mussolini is already tottering, force him to the ropes and deliver a knockout.

Wake Up Come Now to the Municipal Offices –apply for an allotment and ask for advice. The one is waiting for you the other will be freely given.

Food Supplies

How You may Help

Your allotment or garden is a vital link in the chain of security. The merchant ships on which the whole Empire's vast war effort depends are being sunk at an average of over 270,000 tons a month. Many of these ships contain food. Their loss means a decrease in the available carrying space for food. The area of an allotment and garden in order to ensure replacement of or substitution for these lost food supplies must be enormously increased. Don't ponder this vital question act now, today. Secure an allotment for a great offensive Next Year on the Home Front. Dig Now and Dig Deeply. Just two facts selected from many. We imported 250,000 tons of onions and about 125,000 tons of carrots in 1939. Much land and labour are needed to make good this loss of imported food. How You may help. You may lessen this loss by securing at once an allotment. We have it waiting for you. We will gladly and fully advise you how to cultivate and crop it to the best advantage. Mr Churchill has sounded a warning of heavier U Boat attacks on our shipping next year. Lord Woolton has told us to expect shortages of some foods and has warned to prepare to tighten our belts. Fight the U Boat – Grow more Food and Yet More Food. Present a solid front and you may yet refute Lord Woolton's warning. If there is a shortage of some foods then let vegetables replace the lost commodities. Our population is much increased by refugees from other lands. You can back up our seamen, airmen and land forces by growing more food. You can help to smash Hitler and Mussolini and their criminal adherents.

“Never in the field of human conflict was so much owed by so many to so few.” The Prime Minister.

Do your bit call at the Municipal Offices. No don't sleep on it. You can help quite a lot to win this war.

POWs

What do I do to find out about or write to prisoners of war?

If I am uncertain whether my relative or friend is a prisoner, I write for information to the Regimental Office of his Unit in the case of other ranks or to the Regimental Casualties Branch, War Office London in the case of Officers. If I want to write letters or send parcels to a prisoner, I ask at any Main Post Office for leaflet T2280E which will give me full details of how to go about it, I do not use the telephone for enquiry in either case.

Cut this out and keep it - Issued by the Ministry of Information. Space presented by the National Brewers Society.

National Saving / Christmas

Solving the Christmas Present Problem

A beautiful Christmas card. Gift that improves with keeping.

The National Savings Committee has produced a Christmas card which combines utility with beauty. In other words it is a card which will help solve the Christmas present problem from a personal and national point of view. The card bears on the front cover a coloured reproduction of the National Savings Committee's now famous Fiery Cross picture. Inside is an appropriate verse by Owen Seaman reprinted by permission of Punch.

Rejoice whatever anguish rends your heart

That God has given you for a priceless dower

To live in these great times and have your part.

In freedom's crowning hour.

The other part of the card contains 30 spaces to hold 6d stamps enabling the sender to fill in as many as he or she desires as a Christmas Gift – a gift that improves with keeping. The recipient can fill in the remainder. The front cover can be retained when the recipient has used the stamps to buy a Savings Certificate or to make a deposit in the Post Office Savings Bank. This is a most suitable way to start a young person in the savings habit.

The Christmas card has been prepared in response to an enormous demand throughout the country. It is now in the printer's hands and an announcement will be made shortly giving the date when supplies will be available at the Post Office.

Black Out

Cirencester's Black Out Disgraceful

Sir I had the slight misfortune on Saturday night that compelled me to stay in Cirencester from 6pm to 10.45pm. I was shocked by the way the townspeople abuse the Black Out regulations. I am surprised the town has not been bombed to blazes. Lights showed from shop windows and underneath doors. Some shops had no Black Out arrangements whatever. Doors opened letting a stream of light shine across the street. People flashed torches about without care, though they had not been dimmed. Cars pulled up in the parking place leaving their headlamp on for 4 or 5 minutes sending a stream of light across the street, lighting up the opposite shops like searchlight beams. Some cars parked and left their side and rear lights on.

I think the Black Out arrangements of the town disgraceful. Nobody can deny the fact that there is ample proof if one would walk around for a few hours. I would be thankful if you would publish this letter for the benefit of everybody.

Credit Balance		<u>£820,000</u>
		£950,000

Food Production

Cirencester Home Food Production Society [CHFPS]

An address was given by Dr Redington at the meeting held at the Municipal Offices on Wednesday. Dr Redington is the Horticultural Officer for the Gloucestershire County Society. A long report records the advice given and a letter received from Mrs May Bruce (Hillhouse Sapperton) on Quick Return Compost. (full details given).

Enemy Action

Battle in the air

Last Sunday afternoon people in Cirencester were thrilled to see a German Bomber shot down in flames.

The sudden noise of machine gun fire in the air turned all eyes skywards. There was seen a Ju88 being worried by two Hurricanes.

One of the engines of the Junkers was on fire and soon smoke was seen pouring from its tail. The plane lost height rapidly and appeared to swerve sideways from its course. Burst after burst went into the Junkers and parts of the plane fell away and enveloped in flames the machine fell at the rear of the kitchen of Coates manor just grazing the edge of the roof in its fall.

The heat of the fire cracked some of the nearby windows and scorched the window frames, but no other damage was caused to the house and no one was injured.

The crew of the Junkers, apparently 4 in number were so completely burnt that their was no chance of recognition or identification. What was left of the plane was smashed to pieces in the fall, fragments being scattered over a wide area. A scarf belonging to one of the German airmen was picked up 5miles on the other side of town. The chase started miles away. A Wing Commander instructing two Polish pupils in a practice flight met the Junkers. One of the pupils began the attack and the Wing Commander finished it. (later research has credited the Polish pilot with the kill)

Military Welfare /NZ Troops / Dance / Christmas

Dances for the troops at Cirencester

The third dance run by Mr Runacres was a tremendous success. A special band, the (Broadcasting) Military Band of the New Zealand Brigade consisting of 27 performers under the leadership of Lt Miller. 600 to 700 danced through the evening. At one point just five members of the Band including Bdm Vercoe on piano gave a remarkable performance of "hot" dance music. Bdm Vercoe is acknowledged to be one of the finest jazz pianists in the Antipodes. They concluded with the Maori Farewell Song. The decorations left from Fridays dance were exceptionally lavish. The organisers were honoured during the evening with a visit from Lt Col H Frank T Fisher SAQC through whose good offices the Corn hall was made available. He admired the efforts of the townspeople to entertain the troops and said that the War Office wanted to give every possible help.

The Band played for charity in the Market Place during the morning. An elaborate Christmas party is planned for the dance on 21st December. Mr Runacres hopes to obtain the services of the Band again and the Maori Choir.

CUDC Meeting

Evacuees / Salvage/ ARP / Dig for Victory/ Military Welfare

It was confirmed that the Council should use compulsory powers for billeting evacuees but that discretion must be used. This was in view of the Ministry of Health's pressure for more evacuees to the area. The Clerk had drafted a letter to householders who had not yet accepted an evacuee. Mr Winstone said it was essential to support the Billeting Officer who had had rather a rough time at the hands of some householders.

The Salvage Committee reported that the improved transport situation meant that all accumulated stocks of paper and nearly all the scrap metal had been sold. The collection of kitchen waste was successful despite a slight fall in quantity. (Cash receipts given)

The purchase of the ambulance was as reported in the RDC minutes.

The Town's War effort had been reported to Lord Woolton i.e. that the Allotment Scheme had stood at 732 plots and it was hoped to put another 230 plots into cultivation. The Communal Kitchen serving approximately 100 meals daily was also reported and Mr Eden had been informed of facilities for the care of HM Forces in the district.

Mr Rumbol reported National Savings groups now stood at 42 with 1,632 subscribers with the total so far saved £345-10s.

The Streets Committee agreed £153-10s to be paid to Messrs Fletcher and Wilkie to erect a shed to store AFS equipment.

Enemy Action

Spotlight includes a parody on Kipling's "If"

If you can keep yourself from going crackers.

At all the things you're advised to do.

When Hitler sends his horrid air attackers.
With squibs and bombs to try and frighten you.
If you can hear the hellish Banshee warning.
Without that sinking feeling in your breast.
If you can sleep in dug out till the morning.
And never feel you ought to have more rest.
If you can laugh at every Black Out stumble.
Not murmur when you cannot find a pub.
If you can eat your rations and grumble.
About the wicked price you pay for grub.
If you can keep depression down to zero.
And view it all as just a bit of fun.
Then sir, you'll be a (something) hero.
And what is more – you'll be the only one!

ARP / Sirens

Warnings for Watermoor

Dear Sir "The powers that be" have decided that in the Watermoor district it is not necessary to supplement the sounding of Air Raid sirens with whistles. How do the residents feel about this?

A fair proportion of our ARP services reside at Watermoor and experience has proved that it is often impossible to hear the "bugger" at this end of the town, and for them alone it is essential that some warning be given.

There is also the question of safety of the children. An alert may be sounded during the dinner hour and not heard in certain areas. At the time for the return to school, children could easily be sent out into the streets, their parents being ignorant of the impending danger.

One quite appreciates there are people who have no wish to be wakened in the night but if whistles are blown in all districts the public will at least know a raid is possible and can please themselves what action they take for their personal safety.

It has been decided to blow whistles at Chesterton, why not Watermoor?

Watermoor ARP WORKER

Military Welfare

Winstone

Since the Work Party started a year ago 532 garments have been knitted for the forces.

Spotlight

Dig for Victory / Military Personnel

Spotlight comments on the Dig for Victory campaign and says that the fork used in the garden and the fork at the dinner table may well have a closer relationship before long. On fine example is a blind gentleman in a village not ten miles from Cirencester who because his handyman has been called up, is doing his own for an spade work.

He also notes that the Grammar School has 169 old boys serving in the forces in every department. 65 are in the RAF including Walter Hammond, 29 are in the Royal Gloucestershire Hussars. Others are in the Balloon and Searchlight units etc. and one accompanied the Australian Expeditionary Force and one at least is an Army Chaplain. There have been casualties, one on the Royal Oak another on active service, one is missing and two are prisoners of war .

As a group of RAF bomber crew were leaving for a hazardous raid, some colleagues from the Polish Air Force lined up by the door to see them off. Their spokesman stepped forward dictionary in hand and said "God pickle you gentlemen" (English pitfall pickle/preserve)

Black Out / ARP

Electricity ARP

Bombs have caused lights to switch on in empty houses during air raids. The moral for all occupiers of buildings should be whenever the building is left unattended to switch off the lights at the main. Also when the electricity fails at a time when the lights are in use all switches should be turned off immediately to prevent them coming on again when the current is restored maybe during the Black Out.

Pest Control (Large Advert with an illustration of a rat with Hitler's face)

Kill That Rat

Here in Britain is an enemy army of Rats living on us, devouring huge quantities of food, every ounce of which is precious in wartime. Kill these pests now and stop the waste. Rats are filthy disease carrying vermin. They haunt sewers - cess pools – garbage dumps – wherever rotting refuse lies – there are the rats. From wallowing in unmentionable filth these pests invade our larders, our food shops our warehouses gnawing and pawing and wasting food.

Kill Them Now

Trap'em Poison'em Gas'em Hunt'em.

Householders! If you have a single rat set poison or traps today – its your duty.

Retailers! Don't let rats gnaw into your stocks. Set poison or traps today and kill the brutes today.

Mill Owners !

So reinforce and intensify your present ant-rat measures that extermination is swift and complete.

Farmers!

Don't let the Rats rob you. Use poison, traps, gas, ferrets – every possible means to clear granaries and barns. Attack today!

Ask for a leaflet from your local authority. There is one for the householder another for the factory owners and retailers and another for farmers and landowners. This leaflet gives clear directions about the easiest ways to prevent and destroy rats. Everyone can help.

Kill all Rats!

Prof. Bouffour told Cirencester Young Farmers Club at the Congregational School room on Tuesday evening that we must grow more food. We can grow potatoes on the Cotswolds, it is an easy and profitable crop despite some fears that it will not grow well here.

Women's Land Army / Decorations and Awards

A Milking contest was held at Home Farm, Cirencester Park on Tuesday afternoon, the first in a series in different parts of Gloucestershire. The object was to encourage a high standard from training and bring together girls who often work in isolation. Present were: Mrs W S Morrison Chairman, The Hon Mrs William Bathurst Organising Secretary, Countess Bathurst, Lady Susan Hicks Beach, Lady Victoria Hicks Beach, Lady Ingram, Mrs Robinson and others.

The herd was Old Gloucestershire Cattle. The contest was supervised by Miss A Culnett County Instructress in dairying. There were points for personal cleanliness and suitable dress, General style of approach, management and preparation of the cow, management of fore-milk, skill in milking (grip motion and style) efficient stripping, cleanliness of milk (sediment test) no undue waste of time. There were very narrow margins between three contestants. The winner was Miss Hilda Bristow until recently of Mr Garne's farm at Cocklebarrow now on her father's farm at Hillesley, Wotton-under-Edge. She scored 77 points. 76 points were scored by two runners up, Miss A Ellis working on Mr V Pinchin's farm at Chedworth Laines and Miss Coppin senior working for Mr White at Baxter's farm Southrop. The winners in each section are to compete in the finals in the Spring.

Good Service Awards

The competitors, organisers etc were entertained to tea by Countess Bathurst. Good Service diamonds have been awarded to a number of members for 6 and 12 months good service.

Some received them at tea others will in the near future. Those recently awarded are :-
12 months - Miss A Ellis and Miss Goschen (working for Major General Goschen of macaroni Downs East Leach)

6 months – Miss P Mayo (Sir Orme Clark's farm Bibury Court)

Miss E Morris (Earl Bathurst's Home Farm)

Miss Woodford (Mr J Tippet's farm Overley farm Daglingworth)

Miss Whire (Mrs Mackinon's farm Daglingworth Place)

Letters to the Editor

ARP Warnings

Colonel Pardoe explains the position in the light of recent complaints about not being able to hear sirens in certain parts.

The idea of just having sirens was to (1) Call ARP personnel to duties. (2) Warn people in the streets to take cover (3) "Allow those who are in their houses and possibly asleep to remain there in peace and quiet if they are lucky enough not to hear them". It has always been realised that the lay out of Cirencester meant that with the limited number of sirens the prevailing wind would prevent the outlying districts from hearing the sirens, This has meant that a system has been and is in existence where key men in the ARP are warned by telephone.

However it appears that from your correspondents letter and other information that a more comprehensive warning is now desired as follows.

- (1) Chesterton , Watermoor and Stratton – Alert on the siren will be taken up by Wardens who will blow their whistles in short blasts of three in quick succession.
- (2) In the Town Centre no whistle is necessary.
- (3) On the outskirts of the town Wardens will use their discretion in accordance with the wind direction etc. If in doubt they will use the whistle.
- (4) On raiders past "All Clear" wardens will blow three long blasts. At about 15 second intervals in all localities where the whistle has been used for the alert.
- (5) The best way to cover the town would be to make sure there are sufficient Wardens in each section which is not the case in some, not without significance the section from which most complaints come. A Warden's job is well within the capabilities of all day workers. Anyone wishing to enrol can give their name and address to their section warden or at the UDC Offices.

Dig for Victory**Cirencester Food Production Society**

At the meeting of the Society in the Church Hall Cirencester on Wednesday December 11th

Mr A J Matthews presiding, recalled the formation of the CFPS. It now has 99 members. In

the Urban District in 1939 there were 628 allotments. The number taken up as a result of the Dig for Victory campaign in March was 104 making a total of 732.

Miss Bruce of Hill House, Sapperton spoke on Quick Return Compost i.e. compost in a month. This was done by making a bunker preferably from timber and applying a herbal solution which accelerates the breaking down of material. She said she would gladly give the solution to any members of the CFPS or allied Societies in Gloucestershire.

Military Shortages / Supplies

What do I do – if I own a pair of field glasses?

I take them to any optician who displays a poster authorising him to collect prismatic binoculars for the Government. If I can I hand them in as a gift. The optician will give me a receipt and official acknowledgement will follow later.

If I want to sell them I say so when handing them in and the optician arranges for the Ministry of Supply to send me a cheque based on a fair valuation.

If there is no optician near me. I tie a label bearing my name and address and marked “gift” or “sale” and post them to the Regional Binocular Officer 191 Regent Street London W1 Either way I do it now, this very day, because binoculars are urgently needed by our fighting services.

Cut this out and keep it - Issued by the Ministry of Information. Space presented by the National Brewers Society.

The Board of Trade have issued a leaflet to help those whose factory or business has been damaged by air raids to obtain materials and licences etc to rebuild.

Pest Control

The Ministry of Food has a drive on to exterminate rats. Rats eat or destroy 40,000,000 pounds of food per annum. Powers have been given under to defence Regulations to Local Food Control Committees to compel owners to rid infested premises of rats.

Black Out

Black Out Times

Friday December 27th 5.33pm to 8.46am

Friday January 3rd 5.38pm to 8.46am

Blood Sports / Christmas

A large crowd met at Cecily Hill for the Boxing Day Meet. The hounds were on parade but no hunt took place because of a foot and mouth outbreak within 15 miles at Buscot.

Awards and Decorations / Local Military

MC for Cirencester Man

Capt (Quartermaster) Randolph Edgar Dix Brasington of the Gloucestershire Regiment, former member of the Church Lads Brigade eldest son of Mr and Mrs Brasington formerly of Cirencester now Bibury has been awarded the Military Cross.

Children's Christmas Party/ Shortages

The town children's party was a great success the format was as last year. 1,045 over 8s attended the Regal Cinema and 446 under 8s at the Picture House. Films were provided free of charge in each cinema. Others on the programme were Bobby the clown with his partner Evelyn also Cpl Bob Fitch ventriloquist and Winkie, the capital Band of the "Amps" including Pte Strauss conjuror plus Miss Doris Windmill with her accordion. With compere at the Regal Sydney Boulton or at the Picture House Mr Leslie Batt with his yellow woolly dog George who could help have a good time. During the afternoon each child received two cakes and an ice-cream. Plans for chocolate had to be abandoned because of shortage of supply.

After 3½ hours children went home with an envelope containing a shilling. The 131 who could not attend because of illness etc received 2/- as consolation. The £18 raised by the New

Zealand Band made the large scale of the event possible. Mrs Chester master was unable to attend due to ill health.

Evacuee Hospital / Christmas

Evacuee Hospital Christmas

14 patients were joined by 40 or so former patients on Christmas Day. Cpl Bob Fitch and Winkie started the day's festivities. Santa had visited well filling the children's stockings. Dinner comprised turkey – a gift – plus pudding and mince pies and extras. In the afternoon Sydney Boulton gave a much appreciated magic show. (very well received) Pte Jacobi and Pte Brindle of the "Amps" with music and song. It was good to hear the young voices shout Roll Out the Barrel.

After tea father Christmas appeared to distribute gifts from the brilliantly illuminated and decorated tree. It was laden with gifts. At 6pm "God save the King" closed a happy day. On Boxing Day Mr Dennis Moss entertained with a talkie show using his Ge Bescope. The matron and staff are grateful for the many gifts received.

Evacuee Welfare /Communal Kitchen /Christmas /WI

Communal Kitchen and Social Centre

123 sat down to traditional Christmas Dinner on Christmas Day of roast beef and plum pudding, Yorkshire pudding, potatoes, Brussels, mince pies and luck 6d in the puddings. The regulars had decorated the Hall with evergreens and crackers. After the meal they listened to the Christmas Under Fire broadcast and the King's speech and joined in lustily with the National Anthem. During the afternoon Mr Wrangler an evacuee produced impromptu entertainment given by evacuee children. After tea provided by the WI there were games for the children and later the adults.

Boxing Day was similar with 100 at the meal. The meals were cooked by Mrs Sackley and her helpers all voluntarily. Mrs Vaughn lent her radio for Christmas Day (perhaps someone would like to donate a permanent one?)

Mrs Chester Master was unable to attend but Mrs Hankey substituted. Cirencester lived up to the Governments request. Mrs E Evans gave tremendous help with costumes for some of the children.
