038/15-16 County & District Councillors Reports

Cllr Butcher reported that, FDC has to save £1.8M over next four years.

There will be a comprehensive review of spending and there may be an opportunity for public input through a consultation process. Cllr Clark gave examples of a number of possible areas in which savings may be made.

Cllr Clark reported that the County is now being run on a Committee system.

Cllr Clark sits on Environment and Economy Committee, there are 5

Committee's altogether.

039/15-16 Cycle Race/s July 2015: Meeting held, issues regarding car parking, themed scarecrow competition, and a decorate a bike competition were discussed. Meeting was not well attended by village groups. Lots of paperwork re traffic management etc was received, from the Council, and this has now been handed over to Colin Coe, as it was felt that it is not something that Benwick should be completing. Children's painting competition and hog roast will be held at 5 Alls Public House. First race will commence at 9 a.m at 5 Alls Public House, which is a Tour of Benwick, and will finish there at around 11.30a.m. This will be a good opportunity for village groups to be involved in fund raising activities.

042/15-16 Planning/Development

Planning Applications

a) F/YR15/0376/F Construction of a 30 kW ground mounted solar array Land North Of White Fen Farm Whittlesey Road Benwick. Cllr Clark will enquire if a 106 payment can be made from this planning application. It was Proposed by Cllr Chapman, and AGREED that the following observations be sent to FDC Planning.

Cllr Clark

Agreed

1. It is not felt that this construction of a solar array will be of any positive benefit to the village, and will not bring employment to this rural area, and as such in the Fenland Local Plan Policy LP1 it will not "improve the economic, social and environmental conditions in Fenland".

2. In Policy LP14 it states that "high quality agricultural land" should be taken account of in these types of development, and the Parish Council consider the land in question to be high quality agricultural land.

3. Policy LP16 states that "high quality environments will be delivered and protected throughout the district and proposals for all new developments must demonstrate that they meet the relevant criteria". In this case the development would not meet the criteria for retaining field patterns, nor does it make a positive contribution to the local distinctiveness and character of the area, it also has a negative impact on the street scene, settlement pattern and the landscape character of the surrounding area.

4. The Parish Council would also like to know if there will be any 106monies

for community benefit, from this scheme.

b) Fields View, no update
