

KIRKBY MALZEARD MECHANICS INSTITUTE VILLAGE HALL

Village Survey November 2017

The Mechanics Institute Village Hall Committee is currently looking to modernise the entrance area and the under used Reading Room and side office of the Village Hall, to create new community facilities to benefit everyone. These facilities could include a community village cafe and a multipurpose community office and clinical space with Wi-Fi, telephone and printing facilities. Big Plans need funding and we are applying for Lottery Funding and to local funding forums and charities which support village initiatives.

We need the views of all the community so that our plans can reflect your needs.

Members of our Committee will be conducting a Village Survey during the first week of November 2017. We are asking for your help in completing this survey as the more feedback we get the better chance we have of raising the necessary funding. Your views will help drive change in our community right from the start.
