

Coronavirus Scams

Unfortunately there is lowlife scum out there trying to make money out of this disaster. Please be very careful and if in any doubt say NO, hang up the 'phone, delete the suspicious email, slam the door in their face.

To all Essex County Neighbourhood Watch Association Members

We are aware of a number of scams relating to Coronavirus across the country.

If you are in any doubt of the legitimacy of a telephone call then hang up

or a visit by anyone whom you are not expecting then do NOT open the door

and make contact **YOURSELF with Essex Police.**

One of the scams is people calling at houses and offering testing for Coronavirus.

This is a scam, those claiming they can carry out the test on your doorstep are lying.

Do not let them into your home and do not pay them any money.

Please call Essex Police on 101 or if an emergency 999
