Back in October, when the irrigation was turned off, John Whelan discovered that there was a leak in the system. This was not good news because it could have been anywhere. However, two weeks ago he came to look. He tested the tank - not there. So he turned off all the sprinklers and switched the pump on, sending water all the way round the system. After walking the ditch, he eventually found water in the ditch along the hedge side near the far corner. He intended to come and fix it last week but because of the weather, postponed until later this week. It obviously means taking up paving slabs to find the leak. By the time of the Management meeting, I will have more details of what the problem is. I imagine quite a lot of water has been wasted because it is not known how long it had been going on.

Peter, Green Manager

I've agreed and completed the 2018/19 fixtures with all opposition clubs for next season. 23 Home matches and 14 Away. Fixture list is attached.

I will be advising all the clubs that Brian will be taking over the reins from the beginning of next season. I've passed all the relevant files etc to Brian and he's 'good to go'. I'll continue to support Brian when needed and continue as a team selector until the AGM.

We are approaching the end of the Indoor season with three friendly matches left to play, at the time of writing.

The last Harris Trophy match was cancelled by Fair Oak. We had already retained the trophy after the three matches played.

I've given four Jacks to John Gray who very kindly will try and exchange them for new Jacks.

David Andrews.
