

## Serapis Bey

The Master of the Ascension, Serapis Bey spends much time working with those who are seeking true knowledge of the ascension.

He encourages clarity of thought to help the individual recognise their own personal destiny and the development of mental and creative activity. He encourages new methods of power and the development of non-polluting technology, using natural energies.

His followers need a strong sense of self responsibility and need to attune themselves to the planetary purpose. He also encourages a stronger link with the devas.

Very keen on accuracy and dedication, he is not known to appreciate distractions during lessons, however he balances his strictness with rare moments of pure light hearted humour.

His colour is a clear white with an overlay of shimmering mauve and his gemstone is the diamond. His aspect of the source is purity.

He is understood to have been known as David who slew Goliath, later to have overshadowed King Richard the Crusader and the Athenian architect Phidias who built the Parthenon..

I, Serapis Bey, would tell you that the time has come to expand the ability that you have to meet the energy of all kingdoms, to open your consciousness to the elemental and devic; to know that you are all aspects of the one source.

My Fellow Helpers, let me aid you so that we may grow together; so that we may unite our energies in bringing about the natural integrating and acceptance of knowledge of all dimensions.

Let us grow in the ability to use the power of our thoughts.

My Beloved Co-workers, let us, if it is your desire, strive to bring about the changes that will enhance the vibrations of earth. Let us use our ability to restore the balance between kingdoms and of the earth also.

There is so much that all can do to bring about harmony, in the use of music, the arts in all manners, colours have their own vibration, so much is available to use - all will help to bring about the changes that many people would wish to experience.

Will you start to accept that you are indeed powerful, that by your mental thoughts you can create a peaceful world. Think my Friends, will you join me in bringing about these so-desired changes.

Will you start to look with fresh eyes at all that is around you, look beyond the surface for there are wonders to behold.

If you should so desire, I look forward to meeting your vibration with my love and will endeavour to give of my knowledge also.
