## President's Message

For an era of fifty years, Dennis Fare began and ran the Bristol District Association of Healers. For half a century his will and determination, ably supported by his wife, Doreen, steered BDAH through thick and thin. It is now for us, his Trustees of BDAH, to carry the flag onward. We hope, as he did, that our members and ones yet to come will help us in this duty.

We are in a time of frenetic changes; turmoil, incredible behaviour, ill-advised actions and, sometimes, rapid and seemingly unnecessary, unwanted and unwarranted occurrences abound. It is as though the existing order is being brought into question and Mankind's worst attributes brought to the surface for all to see. The Earth itself is illustrating increasing seismic and volcanic activity with changes in its electromagnetic forces, whilst the climate change debate continues.

Perhaps we can take comfort in the channellings of our member, Beryl Sevier. Channelling St. Michael, Protector of the Planet, in her bi-monthly 'Echoes' his message is,

*"It has been noticed that many of you have experienced uneasiness in some way at the changes occurring. I would tell you that this is of naturalment and would ask that you remain as calm as possible in these times".*

So we could consider this as a time of accepting, accepting and expecting; accepting the changes and the rate of change and that change is the natural order; expecting that these changes will be beneficial to us all and future generations. And there can surely be no harm in willing such expectations! We are privileged to live in such exciting times.

I promised to report on the Mind Body Soul show we ran at the Folk House. Well, heavy rain for the first four hours seriously depleted passing trade from Park Street. We made a small profit for BDAH. Most exhibitors were pleased with the outcome. We spent a lot of time in planning and organising so we cannot claim a good commercial return. We have, however, learnt from this venture, experience that could serve us well in the future.

Peace and Goodwill

Tony Smith

## **DENNIS FARE, MNHR, MBHA. 1925-2011**

At nineteen years of age, following a nervous breakdown, Dennis suffered paralysis of the legs and was told that he would never walk again. His father took him to spiritual healers and he completely recovered. This led to him investigating all aspects of spiritual healing. In his teens Dennis was a Baptist, but following his recovery from paralysis he turned to a study of religions, spending four years in reading about and attending the different faiths. Starting with all the Christian ones he then moved on to the middle-eastern and far-eastern religions.

In his early fifties he decided to become a minister, and went on to become a senior Minister of the Church of the Holy Spirit, a free church.

Dennis always had the urge to know more concerning the meaning and purpose of life, with particular reference to the power of the mind. In 1955 he invited a professional hypnotherapist to give a demonstration. As this person brought his own subject to demonstrate upon, Dennis was not convinced, yet it encouraged his interest in the subject. After extensively studying hypnotherapy and psychotherapy, and becoming qualified, Dennis took on patients and obtained a remarkable degree of success.

*Please mention this journal if you contact anyone from our lists.*

He was a member of the British Hypnotherapy Association, and was on the National Council of Psychotherapists and Hypnotherapy Register. He set up in practice full-time in 1976. He's lectured on hypnotherapy (for healing purposes) and demonstrated this in many parts of the UK, Europe and the USA.

In 1980 Alec Forbes - with Penny Brohn, Canon Christopher Pilkington and his wife Pat - formed the well-known Bristol Cancer Help Centre, (now known as Penny Brohn Cancer Care). Dennis, as president of the National Federation of Spiritual Healers (NFSH), was invited to join them, and he worked as a healer and hypnotherapist at the Centre for eleven years. He met Prince Charles when His Royal Highness visited the centre.

The NFSH was founded in 1954, and is now called The Healing Trust. Harry Edwards, the most well-known and significant healer of his generation - who'd founded the Harry Edwards Sanctuary, at his home at Burrows Lea, Surrey, in 1946 - became the first member and later President of the NFSH. Dennis is a past Chairman and President. Dennis chaired at meetings all over the country when Harry Edwards gave healing demonstrations to large audiences. And in 1961 following a request by Harry, Dennis started the Bristol and District Association of Healers, which soon had Somerset added to the title. The Association held many demonstrations, led by Harry Edwards, as this was then the main source of publicity for the ministry of spiritual healing.

Dennis wrote that "in the pre-1939 days and even right up to the mid 1960's Spiritual Healing was looked upon by many people in all walks of life as of little value, except for perhaps nervous disorders of the mind. Little was known about what it was and how it worked - indeed it is still strongly debated and argued about even now. Yet it has suddenly become respectable. Why? Because in spite of serious opposition from all quarters, the sheer weight of evidence in support of it has prevailed."

on the trip. I looked at my watch. Time had stood still. The detour normally would have taken 25 minutes, plus the fact that we were already late and expected to arrive late.

Time had not registered and I walked into the Eye Hospital at 2.18 – just three minutes late. No need even for an apology, as there was a queue at the Hospital Reception desk.

During the years 1973-78 Dennis was a member of the NFSH Cancer Research Committee, under the chairmanship of Colonel Marcus McCausland. The pioneer work carried out by this committee was widely accepted throughout the world as one of the leaders in the field of psychosomatic causes of disease.

In 1972 Dennis suggested that an international World Federation of Healers be formed as NFSH had by then members in fifty-eight countries. Harry Edwards was still its president and Dennis was Chairman. A special Council meeting agreed that this World Organisation was necessary and that the NFSH should sponsor it. The intended international healing organisation should include into membership all practitioners in the healing arts such as doctors of allopathic medicine, homoeopathic doctors, acupuncturists etc. The inaugural conference was held in London in 1975 and Dennis was its first President.

Dennis travelled all over Europe and, in 1977, as President of the World Federation of Healing, (which has recently disbanded), he was invited to the USA by the American Spiritual Healers Association together with the well known Welsh healer Reverend Marian Butler. In the six weeks of their visit he was privileged to treat a baby boy in Boston Hospital, and to lecture at Harvard University. As a result of that visit he was invited back to the USA again in 1978 and '79.

For thirty years Dennis was the Senior Trustee, at Harry's request, of The Harry Edwards Spiritual Healing Sanctuary Trust, chairing meetings at Burrows Lea, four times a year. He resigned in November 2001.

In his social work Dennis spent a number of years helping mentally and physically handicapped children and adults. Because of his interest in this field he became Manager of the Bristol Blind Workshops and in this work he enabled sighted but handicapped people to assist the blind. During this time he met Princess Margaret when she visited the Workshops.

In 1975 at the age of 50 he retired in order to devote all of his time to the treatment of the sick and disabled.

He then set up The Dennis Fare Healing Centre at his home in Kingswood, Bristol, as a teaching centre for most aspects of treatment of disease and prevention, specialising in self-healing. Dennis also practiced hypnosis and psychotherapy there. By 1994 Dennis had produced 64 cassette tapes on all kinds of health and mind related topics and also had written and published a series of 9 Self Help booklets, which were very popular, and which the committee of the BDAH is currently considering updating and republishing.

The Centre must have helped hundreds, if not thousands, of people over the many years of regular Tuesday morning and Thursday evening clinics for Spiritual Healing, (for which they never charged, only accepting donations), as well as through the many lectures and workshops that were organised there, many with internationally acclaimed lecturers. In addition there are many healers who owe thanks for the excellent training they received there.

As members were joining the Bristol District and Somerset Association of Healers from the surrounding counties of Wiltshire, Gloucestershire and Gwent it was decided in 1999 to change the name to Bristol District Association of Healers – or BDAH. Dennis was President of these Bristol Associations for most of their 50 years but has been Patron since 2009, after resigning as President. Dennis was already Patron of Healers International.

Over the years and in many parts of Europe and America Dennis has treated thousands of people. Some of these were medically examined and pronounced incurable. Yet with healing they gradually recovered full health. Many more have learnt of the power and benefits of healing from him, or through those he trained or the organisations that he worked so hard for. It is thanks to his efforts and others like him, including Harry Edwards and more recently Bill Harrison, that healing has become much more accepted and widespread in our society today. We still have some way to go, but with his shining example and the continuing help of those who have followed in his (considerable) footprints, there is no doubt that healers and healing will be with us for many years to come, benefiting countless people.

## THE HEALING OF A STOOL IN ST FRANCIS'S GARDEN

*Something interesting happened in the Garden one hot September day. A green plastic garden stool had warped badly; it had been too near the polycarbonate roof of the lean-to shed and 'cooked' over the scorching weekend I was away. I use it for healing in the garden/visits to patients. It was wobbly and unstable with one leg stuck out at an angle.*

*I discussed with my friend, Jan Dunning, whether I could hacksaw the legs to stabilise it but Jan said 'You'll never fix it - getting the angles right'. Nonetheless, I decided to ask for help emphasising that it was my healing stool and I needed it as it would be difficult to find another like it. I put my hands firmly on top of the stool and asked Archangel Michael for strength to straighten it and - remembering Kuthumi had overshadowed both St Francis and Pythagoras - I asked Pythagoras saying 'You are so good at angles' to get the legs right. I then felt it move back to its original form. In the blinking of an eye the stool had straightened perfectly and I had a witness.*

### EXPANDED TIME

Over the years I have been helped so much with requests for help for a genuine need – like driving against time for a vital appointment and not wishing to divert and waste time to fill up with petrol. Fifty or more miles would be covered without the gauge moving – longer than could be expected by a petrol 'float' gauge. Perhaps an exercise in 'expanded time' for my car.

Another instance of 'expanded time' was when I had an important appointment at the Bristol Eye Hospital and the Hospital Transport arrived late at my home in Alveston, allowing only 25 minutes for a 45-minute trip. The time element was compounded when the driver, after joining the M4 eastwards, suddenly left it and turned northwards onto the M5 instead of continuing along the M4 to the M32 Junction for the City Centre. On the wrong motorway and going 9 miles in the wrong direction before he could leave the M5 and re-enter it to return to re-join the M4, meant an extra 19 miles

*Eleven is the master number that reflects the transformation of the physical into the Divine. During the eleventh year of this new millennium, on November 11, 2011 or 11-11-11, we are being called to a higher service of Light on behalf of Humanity and All Life evolving on this sweet Earth.*

There is a reason why New Zealand is perceived to be one of the most pristine and beautiful locations on the planet. Pulsating in the Etheric Realms above New Zealand is the Portal of Light through which the Light of God flows to sustain the Elemental Kingdom on Earth. The Elemental Kingdom is the intelligent Life-force that comprises the Nature Kingdom, and the earth, air, fire, and ether elements.

Humanity has been inflicting unconscionable damage on Mother Earth. Now that our human egos have been released, we are in a position to heal and restore the wounds in the body of Mother Earth. This is a necessary and critical step in moving forward in the Light.

The Company of Heaven has revealed that in order for our Ascension process to be successful, the body of Mother Earth must be healed. There is a great need for all of the Earth's cracks, faults, fissures, and tectonic plates to be reinforced with Light. The wounds in the body of the Earth that have been created through nuclear tests, mining, drilling for oil, and every other invasive activity also need to be reinforced with Light.

In order to accomplish this vital healing, the Beings of Light have asked that during the powerful influx of Light that will take place on November 11, 2011, Lightworkers from around the world gather in New Zealand within the forcefield of the Portal of Light that sustains the Elemental Kingdom. We will form a mighty transformer of Light as we traverse this pristine country North, South, East, and West anchoring the Light of God into every atomic and subatomic particle and wave in the bodies of Mother Earth. This will be an imperative step of preparation for the influx of Light that will take place in 2012, and far beyond.

## **Tributes to Dennis Fare**

*by Angela Wenger*

I met Dennis in a roundabout way.

In 1991 I started Healing seriously in England and Switzerland, but in a DIY way. I was encouraged by a friend, following Healing she gave me which transformed my life, after a Bristol consultant had told me they could do nothing more for me. This friend suggested I could ask Harry Edwards - of whom I had never heard – for help when giving Healing, explaining he was recognised as the greatest Healer since Jesus. She kindly lent me his 'Guide to the Understanding and Practice of Spiritual Healing' and also Ray Branch's excellent biography. I followed her advice and subsequently visited the Harry Edwards Sanctuary for help and guidance.

I had no idea then that Healing organisations with Codes of Conduct existed nor had I heard of Dennis Fare. However some seven years later, when I asked Ray Branch if he could recommend any Healers in Switzerland, he suggested I contact Doreen Fare of the World Federation.

So I called one evening at 33 The Park. First I met Dennis, who was putting their wheelie bin on the pavement, and he invited me in. I was astonished to learn this was his own Healing Centre and furthermore that he was Senior Trustee of the Harry Edwards Sanctuary, where I had been going for help. Doreen warned me about Healing without insurance and they kindly invited me to join the BDAH and train with them to get me 'legal'.

Dennis was already semi-retired so those who knew him longer than I can speak about his family and his long and distinguished career. I would like to speak of the Dennis I knew, firstly as my 'chief' during my 2-year training, and then as a very special friend. During the gaps between patients when we went into the kitchen for a coffee I learnt a lot. His and Doreen's ways of Healing were different. Dennis was more like a doctor whilst Doreen's healing was intuitive. In the 1990s doctors still wore white coats and he insisted we did too, stressing that this did not turn us into healers – but at least we looked clean!

Dennis loved telling me about his work at Burrows Lea and the occasion when Harry Edwards invited him to give him a hand with a patient. He showed me photographs of the great Demonstrations with thousands present in the Albert Hall, Colston Hall and other venues, explaining he was chosen to Chair these Meetings because he was good at Chairing! He also loved recounting the healing successes when he visited America with Marian Butler.

Dennis was a disciplinarian, which was good. This ensured Doreen's Workshops ran like clockwork and we were all back on seat at the designated time after lunch breaks. I enjoyed his tales of chocolate promotional trips to Germany, of how different Bristol was before the Second World War, and of the jiggery pokery (his words) he'd encountered in some spiritualist meetings. He explained his search for truth by visiting different churches, even getting banned by one for daring to visit another, of his many years at the Cancer Help Centre and how, when Prince Charles visited, he mistook him for the Accountant. When Dennis explained he was the Spiritual Healer, not the Accountant, HRH remarked 'That's what I would like to have been'.

I remember his generosity. He and Doreen trained many without charge in their Healing sessions. Not only were patients helped with their problems but trainees were able to assist 'hands-on'. Patients' donations were frequently pitifully small, when one thinks what they were paying for their hair do's for example – so their work was definitely for love and not for money. Dennis published many booklets detailing his knowledge and was most generous in lending books from his extensive library – sadly, they were not always returned.

I remember his compassion. I witnessed one morning the loving way he spoke for about 15 minutes to a young father with a brain tumour and the sad shake of his head when he left. Dennis remarked 'He wasn't even prepared to give up smoking'. He believed it was important sufferers should not expect Healing to be a 'cure all' but should cooperate by doing all they could to help themselves, telling one lady who said she couldn't face food 'If you don't eat, you will die!'

highest possible resolution of the music available to Humanity. Otherwise, some of the new healing tones might be missed.

You are welcome to make CDs of the music and share them for free with everyone you know. You can print out the images for the cover of the CD and the CD label on the download zip file, and create CDs for your personal use and to give to your friends and loved ones without cost.

You can also listen to the music in your groups and during your healing sessions and meditations. Be creative in the use of this wonderful gift of music, but please do not speak or record anything over the music.

Keep shining your magnificent Light! God Bless You,

**The Dalai Lama, when asked what surprised him most about humanity, answered "Man. Because he sacrifices his health in order to make money. Then he sacrifices money to recuperate his health. And then he is so anxious about the future that he does not enjoy the present. The result being that he does not live in the present or the future. He lives as if he is never going to die, and then he dies having never really lived."**

Men do not care how nobly they live, but only how long, although it is within the reach of every man to live nobly, but within no man's power to live long.

*Seneca (c. AD 5- 65)*

**Those with a loving attitude hardly notice the evil in another person, but instead notice all the good and true things about him; on anything in him that is evil or false they place a good interpretation. Of such a nature are all the angels.**

we fell from grace we closed our hearts so we would not feel so much pain. This blocked the portal through which our Mother God's Love entered the world. This caused our Threefold Flame to become imbalanced, which caused us to lose the awareness of our Mother God. Our Threefold Flame eventually shrunk to what we now refer to as the "spark of Divinity" in our hearts. Well, now that we have cocreated a NEW Planetary CAUSE of Divine Love everything has changed!

This May as we each slept at night, our I AM Presence escorted us into Beloved Mother Mary's Temple of the Immaculate Heart in the Inner Planes. Within her focus of Light, Mother Mary helped our I AM Presence to expand the Threefold Flame in our heart to its original intensity. This is the fulfilment of the covenant Mother Mary made with each one of us prior to this embodiment.

When the time was right, Mary Magdalene expanded her luminous Presence and held Frederic and Joao in the embrace of her radiant Light as Joao played his healing music through Frederic's hands.

Joao gave me a quote to include with the music.

"The frequency of this Celestial Music communicates with the Divine Intelligence of the body at a cellular level raising the consciousness of each cell. As the music soothes and comforts the cells, the body's natural ability to heal itself is enhanced.

This sacred music is compatible and works in harmony with every healing modality or medical treatment a person may choose to experience. The music resonates with an additional blessing for everyone who is dealing with any form of cancer.

This music is a gift from On High and it is never to be bought or sold. Please share this information with everyone you feel would benefit from this sacred gift of Celestial Music."  
*JoaoCota-Robles*

Joao said this music is encoded with frequencies of healing that Humanity has not been able to reach until now. This is being made possible because of the expansion of Humanity's Threefold Flame, the return of our Mother God, and her monumental influx of Transfiguring Divine Love. He said for Frederic and me to make the

I remember his courage. Dennis told me he wanted to live to 100 but it was not to be. With Doreen's support, he bore his increasing infirmities with considerable courage. Struggling once up the step to my front door, he muttered 'I never thought I'd end up like this!' - Hardly a complaint.

I remember our laughs – and they were many - for Dennis had a wicked sense of humour. He enjoyed our monthly Lightworkers' Meetings, held for several years now either at Tina Jefferies' home in Downend or at mine in Alveston. Once sitting close beside him when a repetitive tune was being played and all was serious, I whispered 'I think the needle's stuck' he started to shake with repressed laughter, which set me off, and the harder we tried to stop laughing the more impossible it became – reminiscent of Brian Johnston's helpless efforts to remain serious in his renowned cricket commentary.

I last saw Dennis just before his birthday in May when he was wheeled into his Sanctuary for the final Meeting there. There were six of us. I sat opposite him and he smiled at me and said 'I always remember the lovely meetings in your home'.

I will always remember the help he gave so many during his lifetime.

I first met Dennis and Doreen over thirty years ago. At that time I was very new and naïve about healing and how it works and unfortunately the church I was attending at the time seemed reluctant to share much healing information with a relative newcomer, only to say that years of training and instruction would be required by a reputable full healer before one could practice in the church.

Having heard of this wonderful healer Dennis Fare I decided to meet with him and hope he would answer a few questions and point me in the right direction, so I went along to his house on the evening he was giving healing and slipped into the back of the room. I watched as one by one the people received healing and left, until there was just me in the room. Dennis raised his hand and beckoned me forward. I

stood up and froze. Dennis said "Come along". I held on to the back of a chair in front of me and said, "I haven't come for healing Mr Fare. I want to ask some questions about healing." Shaking his head he said, "No no no. This is not what this evening is about. If you don't want healing you must go." Although Dennis was still nattering on I was not hearing him. I was so embarrassed I wanted the ground to open and swallow me up. I was also angry that this man had not realised what it had taken for me to approach him. But at that moment the door opened and a female voice said, "Have you finished Dennis - teas made." Dennis's wife, Doreen, had not seen me as I was behind the door, but when she came fully into the room I'm sure she sensed something because she gave me a smile and said, "Come into the kitchen and have a cup of tea." Completely ignoring Dennis's protestations about me having to go, Doreen took my hand and led me to the kitchen. Had it not been for Doreen's intervention I would never have returned to 33 The Park and I would have lost out on a long and fulfilling friendship with Dennis and Doreen.

Doreen explained that Dennis liked order and control in his working day but assured me he was also a kind and caring man with much compassion, especially for those who needed help. The outcome for me was a successful training/teaching course from Dennis and a good working and social relationship with both Dennis and Doreen during all the years since.

Bless you Dennis and thank you.

The gifts attributed to Dennis are many and justifiably so. One such tribute was sent to Doreen from Ray and Joan Branch who successfully managed with much love and devotion the Harry Edwards Sanctuary in Guildford. Dennis worked closely with Harry Edwards and Ray and Joan Branch at the sanctuary for many years.

On Christmas Day, in the midst of that incredibly powerful influx of Light, our beloved son Joao got sick. On December 29, 2010, he passed away from complications with pneumonia. Joao was 42 years old. He left behind his wife and three beautiful sons. Since his transition, Joao has shared with his father and me that his time on Earth was complete. He said that he was able to move directly into the Light and that he is now working with Archangel Michael and the Legions of Healing. He said that he will be able to "Gift" Humanity in our service to the Light in ways that he could not accomplish from the physical plane.

When Frederic Delarue, a wonderful French musician, received my e-mail announcing our son's transition into the Light, he said he felt very connected to Joao's soul. Frederic said that he knew Joao was trying to connect too with him and that he needed to be at Joao's Celebration of Life ceremony, which took place on January 8, 2011, in Tucson, Arizona.

Once Frederic made the heart commitment to attend the service in Tucson, Joao began communicating with him. Joao asked Frederic if he would accept the responsibility of receiving a musical transmission that would be a legacy for his family.

During the month of May, while an initiation was occurring for Frederic in France, Mother Mary was assisting every one of us in a miraculous way. Over 40 years ago Mother Mary told us that prior to Humanity's embodiment this time she had made a covenant with every man, woman, and child on Earth. She said that in the not too distant future, when Humanity was open and receptive to the influx of Divine Love from our Mother God, the Holy Spirit, she would draw us into her Temple of the Immaculate Heart and assist our I AM Presence to expand the Threefold Flame in our heart to its original size. She said that this would greatly enhance our ability to receive and assimilate the frequencies of Divine Love from our Mother God and the 5th-Dimensional Realms of God's Infinite Perfection.

The Threefold Flame in our heart originally enveloped our physical, etheric, mental, and emotional bodies. It was the perfect balance of our Father God's Blue Flame of Power, our Mother God's Pink Flame of Divine Love, and the Son and Daughter of God's Yellow-gold Flame of Wisdom. It was the true reflection of the Holy Trinity. When

# MUSICAL RAPTURE

## A Healing Gift for Humanity

June 21, 2011, Solstice

Celestial Music from Joao Cota-Robles through Frederic Delarue

Precious Hearts, I would like to share with you information about a sacred and wondrous musical gift that is being given to Humanity. The Divine Intent of this gift is to assist each of us through the physical challenges we are experiencing as we move through this auspicious time. Please read these words with an open heart and an open mind. We have been longing for the time when Heaven and Earth would come together to assist us in our endeavours to transform this planet and ourselves. This is that moment.

I would like to share a little background about this musical gift. 2011 began with an incredible influx of Light. On December 21, 2010, we experienced the Solstice and a very powerful Full Moon Lunar Eclipse. The synchronicity of these two events occurring at the same time had happened only one other time in the past 2,000 years. That Lunar Eclipse took place within two degrees of the Galactic Center, which opened a mighty portal of Light from the Core of Creation into the Center of the Earth. The Light of God that poured through that portal initiated incomparable pivotal changes for all Life evolving on this planet

Once the portal was opened, the Light of God built in momentum until the New Moon Solar Eclipse which took place on January 4, 2011. During that monumental influx of Light, Lightworkers around the world joined hearts with the Company of Heaven and cocreated a NEW Planetary CAUSE of Divine Love. The powerful Light that bathed the planet during that two-week period catapulted every atomic and subatomic particle and wave of Life on Earth further up the Spiral of Evolution. This paved the way for a God Victorious 2011 which is a year that the Beings of Light have heralded as "The Transfiguring Year of Rebirth and Renewal."

Although Joan and I are unable to be with Doreen and the family, our thoughts are with them at this service which is essentially to say 'goodbye' to Dennis; but the very word 'goodbye' has such a finality about it that we feel the French had a much better way of saying it, for they would say 'au revoir' which literally means 'to the seeing again', for although Dennis is no longer physically with us, we all know that from his new life he will be ever close to Doreen and the family, giving his loving guidance to them as they go on to fulfil their purpose in this life.

Joan and I will for ever be grateful to Dennis for the wonderful support and guidance he gave us in those early days after Harry Edward's passing, for not only was he our principal Trustee but a true friend. When Harry Edwards stepped down as President of the National Federation of Spiritual Healers, Dennis was appointed as the new President, for he was one of our leading healers and was held in the highest esteem by Harry Edwards. Dennis was a splendid organiser and no matter what problems he was confronted with – and there were indeed many – he dealt with them quietly and calmly, never raising his voice and with his disarming manner and good humour soon won over any opposing views.

Dennis will be greatly missed and certainly Joan and I miss him for the loyal friend that he was, but with all his admirable qualities there is perhaps one word that, to us, personifies Dennis, for above all else he was a true 'gentleman'.

And so, Dennis, we say 'au revoir' and in the fullness of time we shall all be seeing you again in that spiritual heritage that belongs to us all.

We first saw Dennis when he was offering healing, along with Ted and Eileen Lester, at Burrington Combe. I was inspired by this and ever since then that is what I have aimed to do.

After Helen and I joined the BDAH in 1998 Dennis and Doreen fully supported us as we took our healing stall around to various events – such as Village Fairs, Steam Fairs, Cat Shows and Horticultural Shows as well as Healing events.

We could not have done what we have without their support and encouragement and have had some great times together. I will always remember the times at the later Bill Harrison Healing Weekends watching Dennis and Doug Seviar walking back from the toilets – wondering who was helping who!

At the Healing Weekend at Secret World this year we put out an 'In Memoriam' book for people to write their comments and memories in, which we later presented to Doreen.

On Sunday at the closing ceremony there, tribute was paid to Dennis and people were invited to hang ribbons on the tree by Bill's Memorial Bench, which many people did.

*Yvonne Ryder, one of our members who trained with Bill Harrison, channelled this from Bill shortly after Dennis's passing –*

Dennis was an exponent of virtue, a good man whose life touched many. We will be working together here, in time, for the good of all, and especially to support you dear friends and healers in your work and especially our little group of 'Bristolians'. (This refers to all members of the BDAH, of which Bill was a long-time member.)

If she had then this story could have been very different! As, indeed, it would also have been had my father known that he had been offered a teaching post in Glasgow, whilst I was still at school. Too late, Dad discovered that the letter offering him the job had been pushed under the door and had gone completely out of sight under the lino!

The next psychic experience I remember was when I was about twelve. I had agreed to meet a friend outside Bristol University one Saturday. I got there far too early so decided to while away the time by going around the Red Lodge, a fine old building constructed in the late 1580s. The only other person there was the curator, who was downstairs.

I sauntered around the rooms trying to imagine what life would have been like when the house was lived in – father standing with his back to the living room fireplace, mother sewing in the armchair, young children playing on the floor whilst older ones sat reading in the window alcove...

Then I moved onto the next room – a small, dark bedroom with a four-poster bed and panelling all in dark wood – I didn't like it so I moved to the doorway to the next room (the doors had been removed). The next room was sparsely furnished and quite light and yet I felt petrified. Not being one to give in to my fears, I took a deep breath and dashed through the room. Whereupon the feeling of fear vanished, leaving me only with a pounding heart! I told my friend and then forgot about it – that is until it happened again about two years later! It took me several days to remember the previous incident, but when I did I determined to go back and see if it would happen again.

This time, of course, I was not able to relax quite so much even though I tried to recreate the same feelings as I'd had before. Nonetheless, when I came to that doorway I still felt the fear even though it was less strong. This time I was able to stand in the room and look at a picture on the wall. I have no idea what the picture was like, as I felt as though someone was approaching me from behind with a dagger raised for my back. I fled.

## Chapter 1 - My early upbringing

I had my first psychic experience when I was about eight years old. I was, for the very first time, trusted to be in the house on my own. It was a 1930s semi-detached with a large garden – big enough, if you wanted, to put a lawn tennis court in. My parents had taken my brother somewhere – maybe to the dentist or to buy him some shoes – and I felt proud to have been allowed to stay on my own. I wanted to do something to show them how responsible I was. So when they were due back I went to the kitchen and stood, in this empty house, wondering what to do – when I heard a voice say “Well, put the kettle on then!”

I was thrilled – I thought God had spoken to me, but at the same time I was disappointed that the only time He had spoken to me He had said something so mundane! I now realise that it was more likely to have been my maternal Grandmother who had passed away when I was six, but I put the kettle on anyway and earned my Brownie points.

I was born not long after the Second World War, the youngest of three children. My sister had been born before the war and was therefore much older than me (or so it seemed at the time) but my brother was only three years older.

We were brought up in the way typical for the period by decent, hardworking, caring parents. We had no particular religion, except just generally Christian, but we were encouraged to go to the local non-denominational Mission.

Our upbringing was nothing out of the ordinary, and I had no knowledge, let alone experience, of things psychic. It was not until much later that I learnt my maternal Grandmother had held séances in her home (to which my father had gone whilst courting my mother), used a crystal ball and could read tea leaves, as could her eldest daughter, whose own son, my cousin, became a healer.

I also learnt much later, that my maternal Grandmother's own mother had refused to emigrate to America with her husband in the 1880s because she had been told by a clairvoyant “not to cross the water”.

Helen did readings at the Mind, Body, Spirit event in Glastonbury Town Hall on Sat September 10th 2011, and helped to raise £2,220 for the above project, via the Bluebird Appeal.

The Bulala community consists of 95 villages in the province of Mzimba in North West Malawi, and covers a population of 35,000 people. This area has 434 children without parental support, 1152 children at risk of losing parental care, and 23 children with HIV.

Malawi is among the 15 poorest countries in the world, with 64% of Malawians living below the poverty line. It is also amongst the 10 countries most affected by HIV and AIDS. There is poor access to health services, chronic food insecurity (especially due to rising food prices) and high levels of malnutrition. Furthermore, 1 in 5 children live without biological parents – many growing up alone, facing poverty and exploitation. In areas like Bulala these issues are exacerbated by the constant threat of drought, floods and food shortages.

The project provides practical support for children without parental care, and for those who are at risk of losing parental care to enable them to stay with their families. It runs 74 community-based childcare centres, each supporting up to 120 children with activities to help them develop their confidence and abilities – like sandpits, cooking games and songs about the days of the week and the alphabet, and building games. These are run by female volunteers, who are helped to create small community plots so that they can provide the children with one nutritious meal each day. The project also provides educational support with books and pens, uniforms and school fees to enable them to attend primary and secondary schools.

It supports vulnerable families by providing seeds and tools enabling them to provide food for themselves, and helps the community set up support groups and run awareness activities, such as training on the dangers of early marriage (77.2% of girls get married at 13-17 years old); HIV and AIDS awareness; parenting skills and the worst forms of child labour.

## Sally Brown's Latest CD Monsal Music 2011

This meditative music is unique and has been meticulously channelled especially to help you come into balance with the new energies. The lyrics include words from Atlantis and Lemuria - they take you through from a distant past as you lose yourself in the music. The sounds will reach and affect you in a way that is right for *you*, taking you through many levels of understanding, helping you release and transmute thought patterns from the past and to realise your full potential.
