

OTHER NEWS

Mudzini continues to provide water for the Kikambala community. The **fish project** is succeeding with not only tilapia being bred but larger catfish. The **farm** is as productive as can be with an increase in cows, chickens and turkeys.

The **school project** is commencing with the land being cleared in January and the boundary walls being constructed. Work was postponed for a while because of the Parliamentary elections. Thankfully they went peacefully and although there is no President yet, the Kenyans are hopeful of having one soon.

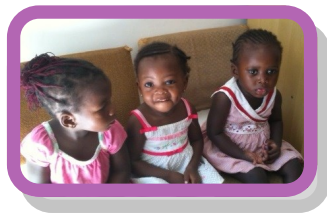

Cariad Kenya is so grateful for all supporters in churches, schools, various groups and individuals. Your continued interest is invaluable.

CHILDREN'S HELP

Here are just some schools to mention. They are **Glan Usk Primary School, Newport** and **Risca Community Comprehensive School, Caerphilly**. They have recently completed fund raising events for Mudzini.

Also, special thanks go to the choir of **Bensham Manor School, Surrey** who braved the cold December weather to raise money carol singing for the girls.

Three of the little ones saying, "Look how we have grown. We are in the office. We plan to go to school next year."

Cariad Kenya Trustees thank all those who are supporting Cariad Kenya and the Mudzini Kwetu Centre in working with International partnerships to transform the lives of vulnerable children.

CARIAD KENYA

Thank you so much for the role you play in supporting Mudzini; in giving, praying, loving, encouraging, advising, knitting and for just being there. Thanks to you for enabling us to come this far. We say in unison, 'ASANTENI SANA.'

YOUNG CHILDREN

Before Christmas, twin girls (see front page) were rescued by Mudzini staff when they were only two weeks old. Their mother died in child-birth and **Emily** and **Angel** were going to be victims of trafficking.

Rehemah Small is now walking. When she arrived last year, she was only eleven days old and was a tiny and delicate child. Now she is sturdy and able to stand up for herself.

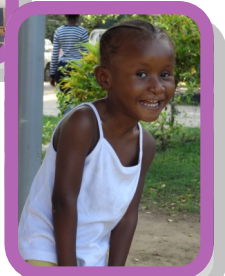

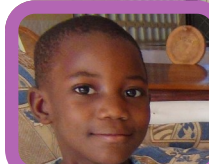

Rose, Somoi and **Joy** are making significant progress in their speech development. The three are barely two years old. (See page 4)

The staff at Mudzini must be commended for their continued devotion to these children and all the girls at the home.

Riziki Small and **Sharon** graduated from Kindergarten to primary school. There was an actual graduation with gowns and gifts. The children felt very important. Riziki obtained 667 marks and Sharon 684 out of 700. Well done!

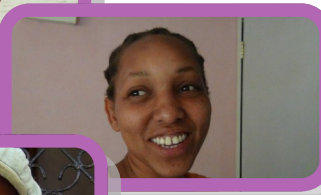

Mapenzi has been for a third operation. She needed surgery on her tongue which was still attached to her mouth. We are so happy that this little girl, who has been through so much in her short life, is making progress.

OLDER GIRLS

Zawadi is now a form one student at Our Lady of Assumption Tawa Girls School in Makueni County. Zawadi loves her school and was very optimistic that this school would help her achieve her dreams.

Gift and **Riziki Big** have joined new schools in Kibwezi and Kirinyaga respectively.

One of the oldest girls, **Purity**, has left Mudzini to live with her brother and his family. Mudzini still meets the cost of Purity's hair-dressing training as she makes her transition from Mudzini into society.

We thank God for the development of all these girls. Thank you for helping to educate these children and young people.

We are so pleased that **Anthony's** health is better.

We congratulate **George** as he married **Mary** in Nairobi in January.

Alice is busy using her legal skills in court fighting for the rights of children.

There are two new employees in **Elizabeth**, another house mother, and **Rose** as the driver.

We are so grateful to **Catherine** who continues supplying us with her enthusiastic updates and information.
