

Hebrews – Epistle to the Hebrews

Target read by date **14th July 2011**

Background

Size: 13 chapters (for the 14th July the target is for the first 4 chapters only)

Who wrote it? Unknown. It has a likeness to the writings of Paul. However there are significant differences which have meant that this letter is not grouped with those of Paul.

Theme. Deals with the growing persecutions and antipathy with Rome..

When was it written? Around AD67, that is around the time of Paul's death and just before the destruction of Jerusalem.

Other works linked to the author: Not known.
