## **News January 2010 Happy New Year!!**

**What do you Believe in** is a new campaign by the National Council for Voluntary Organisations.

This campaign is to help organisations like yours but we need your help to spread the message about the importance of giving to charity to the widest possible audience.

You can help by:

- Registering with websites such as [www.thebiggive.org.uk](http://www.thebiggive.org.uk) or [www.cafonline.org](http://www.cafonline.org) so donors can find you online and make donations direct to your organisation.
- Using the '**What Do You Believe In?**' question and logo in your own work to drive the campaign in your local community. Feel free to use it in your own materials/campaigns to challenge people to think about what they care about and act on it. You can also add the '**What Do You Believe In?**' logo to your own materials.
- Contacting your MP, local councillors or celebrity patrons for support or endorsements. Support from prominent personalities can help raise awareness of your campaign both through the media and directly with the public. Try contacting your MP, local councillors or celebrity patrons of your organisation to see if they will back your role in the '**What Do You Believe In?**' campaign. You could ask them for an endorsing quote setting out what they believe in and what they are doing about it. It could be general. Eg. "I believe in the great work done by charities, which is why I'm backing this campaign and am calling on the public to take part."
- Joining the debate by stating what you believe in and what you are doing about it via social media such as blogs, Twitter and the campaigning website [Louder](http://Louder) to raise awareness of the importance of giving to charity.

## Success Story

### VAVR wins Pan European Bid

Voluntary Action Vale Royal (VAVR) has been successful in securing €20,000 Euros as part of a Grundvig Bid . This is a very exciting opportunity for VAVR and will promote the organisation on a European scale. The bid will span a two year cycle from 2009 to 2011.

VAVR was approached by Mr Kristian Madsen, from VUC Storstrøm in Denmark, who was introduced to VAVR's Adult and Community Learning (ACL) project by Cheshire West and

Chester Council's Lifelong Learning Department in 2008. He was particularly interested the way the ACL project embedded ICT in its literacy provision. As a result of the visit VAVR was invited to become a fifth European partner in an ICT bid.

The main aim of the bid is to create a competent learning and development partnership with six adult education training institutions including Romania, Sweden, Germany, Spain and Denmark. It will concentrate on developing and widening the organisations training methods with the use of ICT based training sessions.

The project will create an ICT website called FRONTER and will enable partners to share experience and best practice when using ICT as an integrated part of adult education and training.

Its objectives are to establish a lasting partnership between institutions in the European community who work to develop initiatives for adults specifically directed towards the use of ICT in education and training. It will broaden and strengthen the trainers' use of ICT as a tool in the everyday planning of training that meets the needs of their adult learners.

It will examine innovative teaching approaches to renew the motivation and inspiration for the target adult learners who require different forms of teaching and learning, including learners with varying disabilities.

The exchange experience will be conducted in the format of seminars, study visits including the use of electronic networks.

The first seminar took place on 26th & 27th November 2009 and was held in Barcelona for all partners. Two of VAVR's literacy tutors attended the seminar.

The bid will consist of two study visits to take place in May 2010 and December 2010. This will involve a three to four day stay at a partner institution.

## **Pre-budget report - new bank for the sector is welcomed**

During his [Pre Budget Report](#) last week, Alistair Darling announced that £75m would be put aside to start a new [Social Investment Wholesale Bank](#). The bulk of this money would come from dormant bank accounts. The bank will supply funds to existing and emerging financial retailers (such as Charity Bank and Triodos), who would then provide finance packages to charities. [The bank](#) is needed because voluntary and community organisations often find it difficult to access capital through the mainstream commercial market.
