

Climbing That Wall...

Lord, today I'm climbing that wall,
Help me and guide me through it all.

Today Lord, I'm trying my best,
But I'm tired and weary and need of rest.

Today Lord, it's more of the same
Difficult and draining, with no one to blame.

Lord today I'm climbing that wall,
help me and guide me through it all.

Today Lord my patience is low,
The daily demands are building and my progress slow

Today Lord, there is little peace,
Inside and outside, there seems no release.

Lord today I'm climbing that wall,
help me and guide me through it all.

Today Lord, I take strength from you,
to carry the burden in all that I do.

Lord today I'm climbing that wall,
But I'm helped and guided through it all.

Interpretation: We are all struggling in different ways and it can feel like we are climbing that same wall day after day but God knows our daily struggles, worries and anxieties before we struggle with them and he shows a way and guides us through it all by his hand.

Greater Than the Parts of the Whole...

I am seen by the roles I play,
the acts I perform throughout the day.
Judge and judger in the paths I cross,
but my value in you Lord never lost.
I know Lord, that no matter how people see me,
You hold the power Lord to set me free.
In you Lord, I am who you made me to be,
help me to remember your complete faith in me.

Interpretation: We are more than how we perceive and measure ourselves. More than the parts of our daily lives we play. Our value is not in our jobs or the roles we play but in God.

During these times of uncertainty, the way we interact, measure and judge ourselves has been interrupted and paused. Our work, interaction with family and friends is not the same. It can cause uncertainty of knowing who we really are and questioning our self-worth - as our daily lives have changed beyond measure.

Our value in the eyes of God is greater than all the parts we play, 'Greater than the parts of the whole.' God wants you to know...

'you are more than how you measure yourself and you are perfectly made in his image.'

With this verse is a strong image of 'the potter's hands.' Made perfectly, crafted in his hands without error...perfectly made.
