Reg. Charity No. 1144988

This is the 'Calder Life'

The king fisher hunting on the river Calder is one of the highlights of a walk in Towneley Park. It is a sign of how much cleaner and healthier the river habitat is for wildlife and this makes it more enjoyable and interesting for us too.

FOTP have been working with The Environment Agency, Ribble Rivers Trust and Burnley Council to improve the rivers in Towneley Park. Several volunteer events have been organised involving hundreds of local people with residents, school groups, businesses and charities, including The Challenge Network and Red Rose Recovery, all taking part.

Non-native invasive plants like Himalayan Balsam, have been cleared from the river banks, rubbish removed and the wetland area and reed bed improved, to help filter and clean the ground water before it reaches the river Calder.

We will be holding more volunteer events in 2015. Come and join us and have fun whilst helping to make a difference and improve the environment for everyone.

If you haven't already, remember to visit the new 'Wild about Burnley Gallery' in Towneley Hall and enjoy the stunning collection of interactive and educational resources, including the beautiful artwork entitled 'Calder Life' now on show. Graham Gavaghan, ecologist at Towneley Hall said: "The 'Calder Life' painting brings to life the underlying story of our River Calder from its source all the way to Towneley Hall, showing examples of all the wildlife species found here. Whether young or old it's the kind of artwork we can use to describe and explain to people more about the environment we all share."

'Calder Life' is a painting by local artist Jon Turner of No6 Creative, commissioned by the Ribble Rivers Trust with the support of the Heritage Lottery Fund.

Have you seen our Comments Box? It is situated in the Hall Foyer, and we would love to have your feedback of what you enjoy in the Park... likewise, any complaints or suggestions you may have for improvements. Please fill in one of the slips, add your name and telephone number if you would like us to contact you.

Wool & Wood Trail

Throughout the winter months the 'Friends', along with Pendle Crafters and various other groups, have been busy knitting, crocheting, felting, and crafting all kinds of things made from wool.

We have made creatures, insects, flora and fauna, whatever you would find in a wood and more. Other people have been whittling their time away making an assortment of wooden objects, such as a bee hive, bird boxes, walking stick handles and pyrography plaques depicting the various scenes on display. Thanks to Social Prescription Funding we have been able to provide the resources for the project which will be on display throughout the summer months.

Take a magical walk through Thanet Lee Wood, with the peg people leading the way. Discover the fabulous exhibits and 20 scenes we have created, including an amazing outdoor gallery. Look out for the Bees & Butterflies, the Cool of the Pool, the Bob Cap Crew, not to mention a string of Bats and a large Spider's Web. Something to delight everyone, whatever their age.

Our sincere thanks go to Diane and Pauline who have inspired us; Richard and Martin who have been our wood tutors, and all those who have contributed in any way. The launch date is Thursday, 26th March, when we will have Radio Lancashire live to broadcast the opening walk from 11.00 – 12.00noon. Do come and join us, enjoy the free show, and spin a yarn to your family and friends.

If all goes well, the exhibition will remain in the woods until September.

Together We Can Do More

2014 was another very successful year for the Friends of Towneley Park. Our thanks go to the Officers and Staff at Towneley who have all helped us in many ways throughout the year, and without whom we could not have succeeded. Donations have been given by individuals and organisations, including Councillors for Burnley, and Lancashire County Councils, to be used towards specific projects, and The Big Lottery Fund have enabled us to complete "The Changing Landscape" leaflet as part of the larger history project in the park. Most of all a huge 'thank you' to the park visitors who have taken part in our activities and helped us to raise funds for the park. We hope that you have benefitted as much as we have.

Throughout the year we have either organised, or been involved with events and activities, some of which are listed below:

- Easter Trail & Hat Parade
- May Day Celebration
- Brass Band Concert
- Walks for All
- Gardening Club
- Bulb planting with school children
- History Project completed
- Changing Landscape Leaflet
- Heritage Trail Signs installed
- Bird Feeding over the winter months
- Working with the River Ribble Trust
- Balsam picking
- Started to renovate the Bowling Club Meeting House
- Tea Room at the Heritage Weekend
- Bonfire
- Christmas Trail and Santa
- Litter picking, etc. etc

If you would like to be involved in any of our many activities, come along to our next meeting on Thursday, 13th May at 10.00am in the Bowling Club Meeting Room.

To help us with our work in the park, you can now make a donation on our website www.ftop.btck.co.uk through Charity Checkout.

Thanks to Drop the Beat, a musical community extraganza in the Park. They donated £200 to our funds.

Wildlife of Towneley

The variety of habitats found within the park: ponds, streams, the River Calder, woodlands grasslands and marsh, all offer wildlife watchers the opportunity to see birds, butterflies, dragonflies, trees, flowers and mammals.

Along the riverbank, look out for Kingfisher perched on a riverside branch waiting to dive down on any passing fish. Grey wagtails are often seen feeding along the river's edge. Dippers can be seen perched on the rocks or looking for aquatic insects underwater.

Towneley Deer pond offers wildlife watchers the chance to see Grey Heron, Moorhen, and more recently a male Mandarin duck can be seen in the company of a female Mallard. During the summer months, Dragonflies and Damselflies can be seen flying around the margins of the pond. Species to look out for include Brown Hawker, Broad-bodied Chaser and large Red Damselfly.

Wilson's Wood, planted in 1999 (a new woodland area below the 9 hole golf course and formerly named Smallholdings Wood) with its woodland rides and paths, is an excellent place to see Butterflies including Brimstone, Ringlet, Orange-tip, Large and Small Skippers. In late May early June a stunning display of Southern Marsh orchids is on view with over 1,000 flowers in bloom.

A walk through the mature woodlands of Thanet Lee and Towneley Woodland in late spring, reveals a carpet of Bluebells and stunning white drifts of Ramsons. During the winter months the woodland birds are easier to see with Jay, Robin, Chaffinch, Nuthatch, Great Tit and Blue Tit all seen feeding on wild bird seed put out by the general public, and the FOTP. Also this winter a Ring-necked Parakeet has taken up residence in the woodland behind the hall.

There is always wildlife to see in the park whatever time of year you visit. I have worked in the park for 37 years and still see interesting wildlife. In May 2014 an Osprey flew over, a bird which I have never seen in the park, and after all these years of waiting a second Osprey appeared two weeks later!

We hope you enjoy the new pathways alongside the River Calder from the Higher Towneley Playing fields to Unity College. £1400 of funding came from the Big Lottery and Burnley Borough Council. The Forestry Commission have also paid for the new pathways to and from the Lodge Plantation and through Wilson's (Smallholdings) Wood near Applecross. The Friends have paid for a new park bench near the Deer Pond, and a picnic bench outside the children's playground at Riverside. The local Councillors have also generously provided the funding for the information board by the Deer Pond. Thanks too, to David, for the donation of an additional picnic table at Riverside, in loving memory of Brenda.

What can we do with the litter? Earle voluntarily collected 190 carrier bags of rubbish last year! The children from St. Stephens primary school collected 10 refuse sacks of rubbish in half an hour last summer. Please place your rubbish in the bins or take it home. If you cannot find a rubbish bin for dog waste, then make sure it is in a bag, and then it can be placed in an ordinary bin. Dog fouling which is not removed has an automatic fine of £70. Help keep our Park clean and safe for all to use.

Look out for the new Towneley footpath leaflet and map to be launched at the Heritage and Woodland day on Sunday September 13th.

Go to the Park is a new initiative that encourages more people to volunteer in their local park. In Towneley Park we are offering training and volunteering opportunities in Horticulture: Woodland Management; Bee Keeping and Event Park Rangers. Ring Lisa or Alan on 01282 450270 or email alan.green@newground.co.uk or lisa.griffin@newground.co.uk to find out more.

APRIL
