Dog Walkers –

Please be reminded that while walking your pets within the public right of way fields of Kingswood that they should be kept on a lead. This is a preventative measure stopping your pet from straying further into the field away from the path and potentially worrying any animals.

A number of signs have been placed around the area to remind the public of this.

Please be reminded that a public right of way path can only sometimes be a few metres wide and does not give permission for the use of the whole field as an exercise area.

There are rural laws that cover this legislation in which I can provide a copy on request.

Please feel free to make contact with me with any further issues or questions.
