**Guild Interfaith Week - 18 - 27 November 2012**
Following the success of the Guild Ecumenical Service and Procession together with the Multi-Faith participation in both the Community and Torchlight Processions,
Preston Faith Forum and Partners are proud to present a specially extended week of events in this Diamond Jubilee year. Please take the time to read about our upcoming events including the faith trails and forward to all your clients/contacts.

Guild Interfaith Week Trails:

PART ONE Sunday 18th November 2012, 9.20am-2pm

PART TWO Wednesday 21st November 2012, 9am-1.30pm

Ever wondered what goes on in that Christian Church? How about that Muslim Mosque, Hindu Temple – or that Sikh Gurdwara? Places of worship in Preston are a goldmine of information about the history and the customs of the diverse faith communities in Preston and Lancashire.

Organised by the Preston Faith Forum, the Faith Trail offers you a chance to unlock these histories and discover a little bit more about the different faiths and the communities associated with them. At each location a member of the organisation explains the basics of that particular faith, the history of the particular location in Preston, and how they engage with their local community. There is plenty of time for questions and answers; everyone who has taken part in the faith trail has been extremely positive about the experience. This year Guild Interfaith Week runs from November 18th – 27th, and amongst many other events features two Faith Trails over the week. Part One will visit a Mosque, Church, Sikh Gurdwara (where refreshments will be available) and an opportunity to meet a Rabbi, and Part Two will take you to a Hindu Temple, another Church, a Bahai presentation and a Buddhist Temple. Join us on this tour to discover for yourselves the unique atmosphere of the living, worshipping faith communities of Preston. To book a place, or for more information, please contact the PFF project worker, Sumayya Kovariwala at: skovariwala1@uclan.ac.uk

Charity donations down 20%, says UK Giving 2012 report
Donations to charity have fallen by 20% in real terms in the past year, with £1.7bn less being given, says a report produced by the Office for National Statistics. The amount fell from £11bn to £9.3bn in 2011/12 - a fall of £2.3bn when adjusted for inflation, the study said. The number of people donating fell - as did the amounts they gave, from an average of £11 to £10 a month.

The accuracy of the report was however questioned by the Institute for Fundraising said that the figures did not match the experiences of its members, who say donations have either increased or remained flat. Cathy Pharoah, professor of charity funding at Cass Business School, said: "A fall of that scale is very unusual and could not be explained by any trends we’ve seen before. It vastly outstrips changes in the economy."

British Red Cross launches loyalty card
The British Red Cross has launched a loyalty card scheme in its charity shops. After running a successful pilot in 2011, the international humanitarian organisation said
customers at its 320 shops around the UK would now be invited to sign up to the Give and Gain initiative. The card, which the Red Cross said was the first of its kind in the charity sector, allows customers to gain points in exchange for their purchases. It also enables them to Gift Aid their stock donations easily. Every pound spent earns one point and customers will be given vouchers according to the number of points gained. These can then be used in the shops or donated back to the Red Cross.

Bus operators are “wrong” to charge young people a full fare when they turn 16, a leading councillor has said. Mark Perks, cabinet member for young people on Lancashire County Council, said firms needed to do more to support youngsters in the county, particularly those not in employment, education or training (NEETs). I want shisha places shut down: former club boss
Preston’s shisha cafes are thriving while the city’s pubs are closing at a record rate. One former nightclub owner who claims his club was forced to close as a result of the smoking ban is furious after the site reopened as a shisha cafe. Graham McMahon, who ran The Mill Nightclub in Aqueduct Street, Preston, said anomalies in the law have left pubs and nightclubs closing at a record rate while shisha smoking cafes are opening up around the country.

Illegal cafes ‘not welcome’
Illegal shisha cafes are not welcome in Preston, an environment chief at Preston Council said today. There are already three shisha cafes in Preston that the council is aware of - but environment bosses admit there could be others not on their radar. Opening and running a shisha cafe is not illegal, but the same rules as the smoking ban apply. The Health Act 2006 prohibits smoking in an area which has a roof or ceiling and is enclosed or substantially enclosed.

Charity says research shows ‘true impact’ of accidents
There should be a "fundamental re-appraisal" of government public health priorities, according to the Royal Society for the Prevention of Accidents (RoSPA). A report by the charity says policies should focus on premature and preventable deaths. On that
basis, action to curb accidents should be the number one priority, it says. Public health experts have welcomed the findings. Official figures show accidents account for just 2% of deaths in England and Wales - far behind cancer, and heart and respiratory disease. But RoSPA says this conceals the true impact of unintentional injuries.

**Lung cancer in women 'to soar' by 2040**
The number of women living with lung cancer in the UK is set to rise significantly faster than the number of men with the disease over the next 30 years, experts say. Macmillan Cancer Support estimates cases in women will rise from about 26,000 in 2010 to 95,000 in 2040. Cases in men will increase from 39,000 to 42,000.
