

Members Attending College and University

The committee notes that there can be a situation where a member is attending college or university, living away from home, and is therefore unable to attend on a weekly basis, but still wishes to remain a member of the club.

Therefore the following guidelines will now come into force:

After confirmation from your team manager and the club coach, plus approval from the committee, a member who is attending college or university and not living at home, may be able to pay on a weekly basis in lieu of the regular subs.

The sum of £15 per session will be payable prior to each session and should be paid by BACS transfer to the Slough Synchro Skating Club, with the name of the skater clearly marked.

It should be recognized that this concession is being made to allow a member to maintain their synchro skating skills and to learn the routine. This will also enable skaters to return to the club on completion of their studies.

Please note, however, that there should be no expectation of being picked to be a skater at competition during this period, other than in exceptional circumstances.
