

# NORTH STANLEY WITH SLENINGFORD PARISH COUNCIL POLICY FOR THE RETENTION OF DOCUMENTS AND INFORMATION

Whilst recognising that it is the custodian for a number of items which represent the raw material of the history of the parish, the Council's document and information retention policy seeks to optimise the items retained for future reference.

## Notes:

- The Parish Council considers that the minutes of its meetings form the basis of its archive and as such much of the information about the parish and the work of the Council will be stored through references in the minute books and retained in perpetuity.
- This document is to be read in conjunction with the Council's Guide to Proactively Published Information.
- Note that items to be stored with Clerk, other than signed minute books and annual accounts documents, may be scanned and stored electronically.
- The minimum retention periods given are just that. In some cases, such as special projects or contentious planning applications, documents will, at the Clerk's discretion, be kept for longer periods.

## Definitions:

NYCC = North Yorkshire County Council; LPA = Local Planning Authority; RFO = Responsible Financial Officer (in this case the Clerk)

Special circumstances = projects, applications or other items generating significant public interest which are not easily available from other sources.

Document	Minimum Retention Period	Reason for Retention	Method of Storage
----------	--------------------------	----------------------	-------------------
