

Plain Bob Doubles Worksheet

How to write out a plain course

Write out line by line.

Put the 2 into the lead.
(As shown)

Each bell leads twice

Then every bell that can swap, changes place/crosses with the following bell.

When the treble gets back to the lead the bell ringing over it in seconds place does a second blow over the treble and then leads again.

Continue as above for the next three leads until it comes back into rounds.

When you have finished
Use a red pen to join the treble line up.

Use a different colour to join the path of the 2 up.
