30th February 2016

Dear [Estate Agent]

[BRICK COTTAGE, CHURCH CLOSE], MIDDLE SOMESUCH

I notice that the above property is for sale [or let] through your agency.

In the interests of you having satisfied customers, can you please make potential buyers aware that the nearby church tower of St Oswald, Middle Somesuch has a ring of six bells, which are rung regularly for church services, weekly practices and by visiting bands of ringers on other occasions.

It also has a clock that strikes every hour and sounds the Westminster chimes every quarter hour during the day.

New ringers are always welcome, but the sound of bells can irritate a very few people, leading to unnecessary aggravation all round!

If you need further information please contact me.

Yours sincerely

Josiah Wellstruck  
Tower Captain
