Community First Responders

Working alongside the ambulance service, Community First Responders (CFR's) are a team of volunteers trained to respond to emergency calls in their local area. Rother Responders have recently been formed and are currently processing applications for CFRs in the Rother area, including Peasmarsh. They are dependent on voluntary contributions and would welcome any fund-raising ideas or donations. For further details, visit their website at www.rothercfr.co.uk

The Rye 10 Road Race

Following last years successful inaugural race the **Rye10** will be taking place again on **Sunday 26th May at 10:00 am** and we are looking for people to volunteer to act as marshals and help man water stations during the running of the race.

The marshals will help ensure runners safety and well-being by managing road junctions and manning water stations on the route.

Volunteers are also needed to help manage the car parking, handing out medals at the finish (something for the Peasmarsh youngsters!) and of course clearing up during and after the event

This prestigious Sussex Grand Prix road race should attract between 200 to 300 runners and is now set to become an annual event

As there will be many jobs to do to make the race run smoothly we will need as many volunteers as possible

This is a great opportunity for Peasmarsh so please get involved by offering to help

One of Many Complaints from Residents

"There are still some inconsiderate dog-owners about in Peasmarsh. The alley-way behind 22 School Lane had two lots of dog poo recently plus a nasty looking carrier-bag hung up on the fence containing "who knows what"!

" I didn't investigate! Most dog-owners are very good now at picking up and it gives one quite a shock to see dog poo just left where it is. Let's hope the message finally gets through to these people that it is horrible and unsightly."

This is fly-tipping and it is illegal. Offenders can be fined as much as £1,000.

Report it to Rother District Council 01424 787000 or www.rother.gov.uk/reportafault
