

# HARPUR HILL RESIDENTS ASSOCIATION

NUMBER 1 : 2014

## NEWSLETTER 1

NOVEMBER ISSUE

### Introduction from Philip Dowell—Chairman

Dear Residents,

It is sometime now since Harpur Hill Residents Association produced a news letter, so I thought I would start by saying a few words about the association.

We meet on the last Wednesday of every month at the Hoffman Bar in the village at 7-30pm. We are a non political organisation and welcome young and old alike to our get togethers. We are currently seeking to attract more people, so please come along, have a drink, share in our discussions, let us know what you think; your opinion matters and we would love to hear it. Should you have attended in the past, but no longer come along for one reason or another, then now is the time to let us know and we will try to make any necessary changes.

Over the last few months we have been heavily involved with all of the potential planning applications that are currently affecting our village, and for sure the watch will continue as details emerge with a view to protect our environment.

We are currently embarking on a new social calendar for the forthcoming few months and into next year, details of which we will publish on our web site ([www.harpurhill.org](http://www.harpurhill.org)) if you have not visited please take a look, also please feel free to leave us your comments in the section provided, and also any suggestions you may have for social events within our village.

Finally I would say, Harpur Hill Residents Association is your association, formed many years ago to give the residents of Harpur Hill a voice. So please come along to our month end sessions, have some fun, discuss any problems you may have, discuss your views for the future of our village. Together we will be so much stronger.
