

NORTHWICK ROAD ALLOTMENTS

ANNUAL INSPECTION

It is that time of year again – During June the annual inspection of all the Plots will take place.

This will, as always, include an appraisal against the cultivation standards set out in the Tenancy Agreement in particular Clause 2.3 to ensure a reasonable attempt is being made to match up to them.

Once again attention will be given to the inter-plot paths, which should be kept unobstructed by sheds / plants / compost bins / canes etc., maintained level, cut, and to a reasonable width (min. 2' 6" – 75cms) to allow passage by man-with-barrow.
