Welcome to the November Flyer

As has been the case during the last two years we will be publishing the Flyer on the Farringdon Web and Facebook pages during the current Coronavirus restrictions.

This year is the hundredth anniversary of the British Legion Poppy appeal and the cover picture is of poppies in Flanders Field.

There will be a remembrance Service in Farringdon Church at 11am to remember those fallen in all conflicts. Please be there at least 10 minutes early.

John McCrae wrote the poem *In Flanders Fields* which inspired the use of the poppy as a symbol of Remembrance.

In the spring of 1915, shortly after losing a friend in Ypres, a Canadian doctor, Lieutenant Colonel John McCrae wrote his now famous poem after seeing poppies growing in battle-scarred fields.

*In Flanders' fields the poppies blow
Between the crosses, row on row,
That mark our place: and in the sky
The larks, still bravely singing, fly
Scarce heard amid the guns below.
We are the dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders' fields.
Take up our quarrel with the foe;
To you from failing hands we throw
The torch; be yours to hold it high,
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders' Fields.*

HARRIS FAMILY CELEBRATIONS

IN FARRINGDON CHURCH

On Saturday 4th September the wedding took place of Fiona Harris and David Baggott on a lovely late summer day.

Four weeks later, on Sunday 3rd October, the family met again for the baptism of Freya Middleton, the daughter of Fiona's elder sister Anna and her husband Nick. Again the weather was kind.

A MESSAGE FROM DEVON COUNTY COUNCIL

Prevention is multi-layered and we need all its layers to be effective

We've drawn inspiration from Swiss cheese this week, and shared an analogy used by the BBC to describe [the importance of all prevention measures, in the fight against coronavirus](#).

Case rates are rising. The vaccination programme is going well, with booster jabs among our older and eligible population, and vaccinations now available for 12 to 15 year olds.

But as effective as the vaccine is, it can't be used in isolation as a measure to combat coronavirus.

The Swiss Cheese analogy describes prevention as a range of different Swiss cheese slices. On their own, they're less effective, but combined, they offer much more protection against viruses.

It argues that alongside the vaccine, we need face coverings, regular hand washing, testing, socialising outdoors, distancing – all of these measures add up to a more effective level of protection and prevention than just one on its own.

We like the analogy, and thought it was worth sharing.
